# Welcome to MLA '95

## FROM THE PRESIDENT

*Fred W. Roper, Ph.D.  
President*

I am really pleased that you have chosen to attend the 1995 Annual Meeting of the Medical Library Association, "Health Information for the Global Village." Washington, DC, is a wonderful site for this meeting with its international focus and for the 7th International Congress on Medical Librarianship (7ICML). I am particularly pleased that we are meeting in Washington, because it was the site of my first MLA meeting in 1963, which also was held in conjunction with an International Congress on Medical Librarianship—the second, and the only other one held in the United States.

The 1995 National Program Committee (NPC), chaired by Linda Watson, has planned a superb program that will give us a greater awareness of just how "connected" we are to the worldwide health information network. This presents a wonderful opportunity to network with colleagues, establish new relationships, and grow both personally and professionally.

I hope that you will also participate in 7ICML. Lois Ann Colaianni and the International Organizing Committee have worked hard for the past several years to ensure the success of 7ICML, and the results of their labor should prove very stimulating.

Thanks for joining me at MLA '95. I hope this meeting will be memorable for you.

Fred W. Roper, Ph.D., President

Committee*

Welcome to the global village! On behalf of the 1995 National Program Committee (NPC) and the many others who have worked so hard on this meeting, I want to thank you for your participation in this "once-in-a-professional-lifetime" opportunity. Beginning with our first planning meeting three years ago, we have tried to design an educational and social experience that incorporates past meeting successes as well as the unique potential of the 7th International Congress on Medical Librarianship (7ICML).

MLA '95 and 7ICML share the theme "Health Information for the Global Village." Each meeting presents its own programs but encourages collaboration among events and participants. Four MLA plenary sessions set the tone. MLA section, committee, and special-interest group papers and posters demonstrate the amount of talent and diversity of ideas among our membership. A full roster of continuing education courses supports your commitment to professional development.

Learning new skills, gaining new insights, and sharing knowledge with your colleagues will absorb you, but save time and energy for the social events we have planned. Be sure to "See the USA: The MLA and 7ICML Way" on Wednesday night—a celebration bridging the two meetings.

Our work is nearly done—yours is just beginning. Participate. Reflect. Evaluate. Enjoy. Please read on to map out a path through your meeting, and discover the richness of this global experience.

On behalf of the International and Local Organizing Committees, welcome to the greater metropolitan Washington, DC, area and the 7th International Congress on Medical Librarianship (7ICML). We hope that each of you will take full advantage of the many opportunities that 7ICML and the 95th Annual Meeting of the Medical Library Association will provide.

On July 21, 1953, more than 300 librarians gathered in London to inaugurate the 1st ICML. In the forty-two years since that inaugural event, computer and telecommunications technologies and scientific advances such as DNA sequencing and the eradication of smallpox have radically changed the world in which health sciences librarians practice their profession. These two 1995 meetings are designed to help you gain the knowledge and skills to take advantage of these new technologies. However, as these innovations enable us to reach every part of the globe electronically, it is even more important that we come together to know each other and the environment in which each of us works. For, to provide "Health Information for the Global Village," we must truly be an international profession of health sciences librarians.

Welcome! Learn new skills, meet and talk with new colleagues, enjoy the culture the greater Washington area has to offer, and renew your sense of dedication and enthusiasm for providing "Health Information for the Global Village."

Lois Ann Colaianni, Chair, 7ICML International Organizing Committee

---

Health sciences librarianship and information management are international in nature. Yet, today, with the rapid increase in the number of libraries that are networking and offering access to networked services, the international perspective is emphasized more than ever in our everyday work.

When we were setting the agenda for future action five years ago at our previous congress in India, few of us could envisage the astounding speed of development of the Internet and of the electronic information resources all over the world that can be accessed through it. Today, we seem to be much closer to the "global village."

As a consequence of the possibilities of information sharing and communication, librarians and information specialists must develop common values and encourage one another to become central actors in the development of a high-quality global health information system with equitable access and a user-friendly structure.

The 7th International Congress on Medical Librarianship gives all of us this excellent opportunity to meet, to learn, to share, and to interact. Our distinguished host, the Medical Library Association, has organized an outstanding program with a large exhibit and an opportunity to visit health sciences libraries and information centers at the leading edge of our field—above all, our alma mater, the National Library of Medicine.

## Academy of Health Information Professionals

The academy is an MLA professional development and career recognition program, documenting various levels of achievement and mastery of essential areas of knowledge in the health information field. One way the academy measures professional accomplishment is through MLA contact hours, which translate into credentialing "points" that may be applied toward academy membership. As a 1995 Annual Meeting attendee, you are eligible to earn one contact hour for each day of meeting attendance, up to three meeting days per year. You may earn additional points by participating in annual meeting continuing education courses.

## Academy Booth—"Credentialing Headquarters"

Members of the Credentialing Committee and the Professional Recognition Review Panel will be eagerly awaiting your questions and comments regarding MLA's Academy of Health Information Professionals. The Academy Booth, displaying brochures, information booklets, and application forms, is located at the MLA Registration Center.

## Americans with Disabilities Act

The conference hotel and the Medical Library Association (MLA) acknowledge that under Title III of the Americans with Disabilities Act (ADA) and the regulations promulgated thereunder, the hotel facilities being rented to MLA, its guest rooms, and common areas will be in compliance with the public accommodation requirements of the ADA and, as rented to MLA, such facilities will be accessible to and usable by individuals with disabilities who may attend or participate in MLA's functions.

## Children

Child care is available in the Washington, DC, area through the following organizations: weeSIT, Barbara R. Parkerson, 703/764-1542; and the Family Child Care Referral Agency, 202/723-2051. These organizations are not associated with MLA, and any use of such is strictly by agreement between the provider and the user. MLA disclaims any liability for the use of child care. Check with your hotel concierge for more child care information.

Children who attend MLA programs and exhibits must be accompanied by an adult at all times, and children who can walk must have a badge. Complimentary children's badges are available at the MLA Registration Center.

## Colleague Connection

Meet fellow professionals and network with your peers through Colleague Connection! The Membership Committee's popular program pairs new members or first-time attendees with more experienced members. Once assigned, each pair of colleagues sets its own meeting schedule. The deadline for participating was April 7, 1995, but for an "emergency connection" or to help a new colleague, contact Susan Couch at the New Member/First-Time Attendee Orientation on Saturday, May 6, 5:00 P.M.—6:00 P.M. in the Georgetown East Room on the Concourse Level. International visitors may request a colleague who speaks their language.

## Emergency Hot Line

The Washington Hilton and Towers has an emergency hot-line number, extension 60, which is posted on all house phones and guest-room phones throughout the hotel.

## Exhibits

Located in the Exhibit Hall of the Washington Hilton and Towers, the MLA Hall of Exhibits opens Sunday, May 7, at 6:00 P.M. with a gala reception and will span both MLA '95 and 7ICML. Meet the vendors that serve the biomedical information community, and take advantage of this unique opportunity to learn about state-of-the-art products and services for your institution. To fully enjoy the many displays, we suggest that you allow six hours during the five-day period for walking through the Hall of Exhibits. For the first time, appetizing, moderately priced breakfasts will be available in the exhibit area beginning at 7:30 each morning, Monday, May 8, through Wednesday, May 10. Annual meeting coffee breaks will also be served in the exhibit area, sponsored by Faxon, a Dawson Company. The Hall of Exhibits closes Thursday, May 11, at 2:00 P.M., following a farewell brunch.

## Hall of Exhibits Hours

Sunday, May 7, 6:00 P.M.—8:00 P.M.  
Monday, May 8, 7:30 A.M.—NOON,  
2:00 P.M.—5:00 P.M.  
Tuesday, May 9, 7:30 A.M.—5:00 P.M.  
Wednesday, May 10, 7:30 A.M.—2:00 P.M.  
Thursday, May 11, 11:00 A.M.—2:00 P.M.

# General Information

## Hospitality Center

Friendly folks will staff the Hospitality Center during both MLA '95 and 7ICML so you will always be able to find an answer to your question. If they cannot answer it, they will have literature that will do the job. Please stop by the desk for local maps of Washington or copies of menus from area restaurants, to sign up for an evening Dine-Around, or to find the closest dry cleaner's. You will also find a list of local libraries that invite you to visit while you are in town.

A representative from Metro, Washington's public transportation system, will be stationed near the Hospitality Center to sell fare cards and to answer all your questions about bus and subway connections. The Hospitality Center is located on the Concourse Level.

## Hospitality Center Hours

Thursday, May 4, 4:00 P.M.—8:00 P.M.  
Friday, May 5, 3:00 P.M.—6:00 P.M.  
Saturday—Wednesday, May 6—10,  
8:00 A.M.—6:00 P.M.  
Thursday, May 11, 8:00 A.M.—4:00 P.M.  
Friday, May 12, 8:00 A.M.—5:00 P.M.

## International Visitors

The International Cooperation Section extends a cordial welcome to international visitors and will be pleased to answer any questions regarding MLA '95 and 7ICML. All international visitors are invited to a special orientation session and reception on Saturday, May 6, at 5:00 P.M., in the Georgetown West Room on the Concourse Level.

## Lost and Found

Please return lost-and-found items to the MLA Office in the Caucus Room on the Terrace Level.

## Member Resource Room

For your convenience, typewriters, a photocopier, and an IBM-compatible computer (with a laser printer) are available for association business in the Member Resource Room. Sign-up sheets for equipment will be available, but you must provide your own diskettes (the computer will accommodate both 5" and 3" floppy disks). The Member Resource Room, shared with the Placement Service, is located in the Conservatory Room on the Terrace Level.

## Member Resource Room Hours

Saturday and Sunday, May 6 and 7,  
9:00 A.M.—4:00 P.M.  
Monday and Tuesday, May 8 and 9,  
8:00 A.M.—5:00 P.M.  
Wednesday—Friday, May 10—12,  
8:00 A.M.—4:00 P.M.

## Message Center

The attendee message center and bulletin boards for all MLA official announcements are located at the MLA Registration Center.

## Metro Desk

A representative from Metro, Washington's public transportation system, will be stationed near the Hospitality Center. Visit the Metro desk for directions and maps, to buy fare cards, and to get all your questions answered. Assistance will be provided each day of the meeting, starting Saturday, May 6, 1995.

## MLA Booth—"Information Central"

The MLA Booth, located at the Registration Center, is your central source for information on MLA programs, services, and products. Member volunteers and headquarters staff are available to answer your questions as you browse through MLA brochures, publications, and promotional materials for your library. Feel free to pick up samples and take them home!

## MLA Internet Center

*Sponsored in part by Ballen Booksellers International, Inc.*

The MLA Internet Center, a service and learning area, provides convenient Internet access for meeting attendees. If you are a first-time or beginning Internet user, stop by the MLA Internet Center in the Hall of Exhibits and find out how networked information can be useful to you.

See "Exhibits" for hours.

## MLA Learning Center

*Sponsored in part by Data Trek, Inc., and Williams & Wilkins (a Waverly Company)*

Organized and staffed by members of the Educational Media and Technologies Section, the MLA Learning Center in the Hall of Exhibits is a microcomputer demonstration area that offers hands-on exposure to innovative computerized health sciences curricula. If you've been asked to select or support these types of instructional resources for your institution, stop by the MLA Learning Center to explore and evaluate these programs first hand and discuss your experiences with your colleagues.

See "Exhibits" for hours.

# General Information

## MLA Office

The MLA Office is located in the Caucus Room on the Terrace Level. You may leave messages for members of the Board of Directors and MLA staff there, or stop by if you have questions about any meetings or activities.

## MLA Office Hours

## Newsletter

Sponsored in part by EBSCO Information Services and Knight-Ridder Information, Inc.  
(formerly Dialog Information Services, Inc.)

The *Global Gazette*, the newsletter of MLA '95 and 71CML, will be published daily during both meetings, Sunday, May 7, through Friday, May 12. Please submit items for publication at the MLA Office or at the Hospitality Center no later than 3:00 P.M. on the day before you wish them to appear.

## 1996 Annual Meeting

The 96th Annual Meeting of the Medical Library Association, "The Information Frontier," will be held in Kansas City, MO, June 1—5, 1996, at the Hyatt Regency Crown Center, Kansas City Convention Center, and the Westin Crown Center. A call for participation is included with your registration materials. MLA '96 will be followed by a one-day symposium cosponsored by MLA and the American Medical Informatics Association. The 1996 National Program Committee invites you to stop by Booth 716 in the Hall of Exhibits for additional information.

## 1996 Section Program Planners Session

Planning for Kansas City? Don't "Hear It through the Grapevine!" A must for section and special interest group program chairs, sponsors, and cosponsors, this meeting, from NOON to 2:00 P.M. in the Lincoln East Room on Sunday, May 7, is your final chance to discuss your program plans face to face with members of the 1996 National Program Committee and the MLA Section Council. Program planning materials, instructions, and deadlines for MLA '96 will also be distributed.

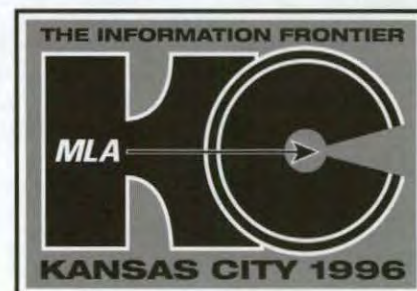

## Placement Service—"Jump-Start Your Job Search"

Seeking a new job or a change of scenery? Looking for the perfect employee to fill a position? Let MLA's Placement Service help you! Located in the Conservatory Room on the Terrace Level, the Placement Service provides a meeting place for both job seekers and employers. Because the Placement Service shares space with the Member Resource Room, photocopying facilities are available.

An orientation for Placement Service users will be held on Sunday, May 7, 8:30 A.M.—9:00 A.M. Individual job seekers and employers may submit late applications to the Placement Service through Monday, May 8; catalogs of Job Opportunity and Applicant Forms will be on sale beginning the morning of Wednesday, May 10, at the Registration Center.

ABSTRACT: Fuzzy set theory allows one to map inexact data, concepts, and events to fuzzy sets via user-defined membership functions. This paper describes a method for (1) robustly estimating the mean and slope of an arbitrary number of data points, (2) developing a set of fuzzy membership functions to classify various properties of heart rate trends, and (3) finding the longest consecutive sequence of heart rate data that fit a particular fuzzy membership function. Preliminary results indicate that fuzzy set theory has significant potential in the development of a

## CURRENT PRACTICE IN HEALTH SCIENCES LIBRARIANSHIP

Series Editor: *Allson Bunting*

eight-volume series\*\*\* that replaces MLA's classic  
*Handbook of Medical Library Practice*—

Volume 1—

### REFERENCE AND INFORMATION SERVICES in Health Sciences Libraries

*Sandra Wood, ed.*

Current Practice in Health Sciences Librarianship, No. 1  
ISBN 0-8108-2765-4 \$39.50

"... writing and editing quality is very good....  
volume is well organized.... represents an  
important contribution to the profession." —

**James Shedlock, *Doody's Health  
Sciences Book Review Journal***

This first volume of the new CURRENT PRACTICE series is supplemental to the standard HANDBOOK OF MEDICAL LIBRARY PRACTICE, which is still available and valid. Over the next several years, seven additional volumes will be published, and, when complete, the new set will replace the 3-Volume set, published between 1982 and 1988.

**Additional volumes  
to be published in the series—**

**INFORMATION ACCESS AND DELIVERY IN  
HEALTH SCIENCES LIBRARIES, Carolyn  
Lipscomb**

**COLLECTION DEVELOPMENT AND ASSESS-  
MENT IN HEALTH SCIENCES LIBRARIES,  
Daniel Richards & Dottie Eakin**

**ACQUISITIONS IN HEALTH SCIENCES  
LIBRARIES, David Morse**

**ORGANIZATION AND MANAGEMENT OF  
INFORMATION RESOURCES IN HEALTH  
SCIENCES LIBRARIES, Laurie L. Thompson**

**HEALTH SCIENCES ENVIRONMENT AND  
LIBRARIANSHIP IN HEALTH SCIENCES  
LIBRARIES, Lucretia W. McClure**

**ADMINISTRATION AND MANAGEMENT IN  
HEALTH SCIENCES LIBRARIES, Rick B.  
Forsman**

Volume 2 now published!

### EDUCATIONAL SERVICES IN HEALTH SCIENCES LIBRARIES

*Francesca Allegri, ed.*

Current Practice in Health Sciences Librarianship, No. 2  
196 pp. 1995 ISBN 0-8108-3004-3 \$29.50

Emphasis in this volume is placed on principles of teaching and learning, descriptions of print and nonprint instructional programs and materials, administrative issues, evaluation processes and procedures, and trends affecting educational services. Numerous examples are provided throughout, particularly of computer-based instructional delivery systems. This volume greatly expands the coverage of educational services in earlier editions of the *Handbook of Medical Library Practice*.

Still available—at a deep discount—while the  
Current Practice series  
is being developed:

**INTRODUCTION TO  
REFERENCE SOURCES IN  
THE HEALTH SCIENCES,  
3rd ed.**

**Fred W. Roper & Jo Anne Boorkman**

312 pp. 1994 ISBN 0-8108-2889-8 \$35.00

"...standard textbook for descriptions of major  
reference sources in the health sciences....

This book succeeds in introducing the student  
to a basic understanding and appreciation of  
reference sources...." rating: 98 —**Doody's  
Health Sciences Book Review Journal**

"... New users of this guide will find more  
than the title indicates.... Librarians in public  
and academic libraries should also consider  
purchase for use in collection development  
and reference training."

—**Reference Books Bulletin**

"... continues the excellent tradition of the  
previous editions.... should be welcomed not  
only by instructors of health sciences  
courses, who now have a current textbook,  
but by librarians new to the health sciences  
and by experienced practitioners, who now  
have an excellent guide to the literature.... all  
chapters are well organized and very  
readable.... should be included in all health  
sciences collections...." —**Bulletin of the  
Medical Library Association**

"... useful to nonspecialists because the  
authors identify subtle nuances that  
differentiate similar reference tools....  
Recommended for libraries collecting in the  
area of health and medicine...." —**Choice**

### "Lunch and Learn" Educational Opportunities

### CINAHL Information Systems

#### Lincoln West

CINAHL is the authoritative resource for nursing and allied health literature. The multidisciplinary coverage of CINAHL includes the professional literature of nursing, seventeen allied health fields, biomedicine, consumer health, and health sciences librarianship. Nearly 700 English-language and foreign journals, as well as books, book chapters, pamphlets, audiovisuals, educational software, and selected conference proceedings are indexed. This year's presentation will showcase hands-on demonstrations of CINAHL products and services in a variety of formats including print, CD-ROM, and online. New formats, capabilities, enhancements, and search tools make searching CINAHL easier and more productive than ever.

### Institute for Scientific Information (ISI)

#### Georgetown West

Complimentary lunches will be provided for the first fifty attendees. Get an update on ISI's Electronic Library project. We have met with all participants—the library community, STM publishers, and IBM. An economic model has been developed and an image-based library will soon be in beta test!

### Matthews Medical & Scientific Books, Inc., and Doody Publishing, Inc.

#### Jefferson East

Dan Doody of Doody Publishing will present a review of health sciences book publishing for 1994. Dan will analyze statistical data on characteristics of publishing, specialty areas, and pricing. In addition, Dan will discuss new and emerging trends in health sciences publishing.

### National Library of Medicine (NLM)

#### Monroe East and West

Take a break from your tour of the global village and assemble with NLM staff in our own little corner of the world! Plans for new MEDLARS databases and features, DOCLINE activities, Internet access, as well as other avenues NLM is exploring to expand and improve services will be discussed.

### Ovid Technologies

(Formerly CD PLUS Technologies)

#### Jefferson West

An introduction to searching BIOSIS through the Ovid interface: an Ovid Technologies/BIOSIS joint session. Open to all librarians, this session is dedicated to database searchers interested in learning all about the unique strengths of BIOSIS under the Ovid search interface. Bring a lunch (Ovid Technologies will provide additional refreshments), and join us for this joint presentation hosted by Steve Ifshin of Ovid Technologies and Ann Farren, BIOSIS senior education specialist. The dialog will include detailed overviews of BIOSIS Previews, Biological Abstracts, and BA/RRM, as well as a discussion of many of the special features brought to each database through the Ovid search engine.

### SilverPlatter Information, Inc.

#### Georgetown East

Let SilverPlatter help you make the most of your MEDLINE subscription! Please join us for a complimentary lunch buffet, accompanied by discussions on how you can utilize MEDLINE to its fullest capacity through ERL technology, Internet subscriptions, and critical new technological developments. Bring your appetite and your questions—this is one lunch that you will not want to miss!

### Information Access Company

#### Lincoln East

Health Reference Center (HRC), a complete health library on CD-ROM, enables users to find current information on a variety of health subjects. It includes the full text of 100 consumer-oriented health magazines and professional medical journals, 500 medical-education pamphlets, and 5 consumer health reference books. HRC's counterpart, which is offered to large hospitals and managed-care administrators, contains all the information above, including topical overview material licensed from Clinical Reference Systems (CRS) and additional reference material that directs patients to support centers, hot lines, and other resources.

### IVI Publishing

#### Monroe West

Multimedia information leadership...the right role for health sciences librarians. IVI Publishing presents a seminar demonstrating new multimedia technology, showing the latest trends and exciting opportunities in medical information. Should the librarian have a role in CME? What should that role be? It's a question of leadership.

### Knight-Ridder Information, Inc.

(formerly Dialog Information Services, Inc.)

#### Hemisphere

Come and learn what is new on DIALOG, Data-Star, and KR Information OnDisc (formerly DIALOG OnDisc). Bring your questions on any of the more than 650 databases and 60+ OnDisc CD-ROM products available from Knight-Ridder Information. Lunch will be served.

### Majors Scientific Books, Inc.

#### Lincoln West

Come take a look at Majors services available through the Internet on the World Wide Web using Mosaic. Browse bestsellers and forthcoming titles in specialized categories quickly and easily. Also find out how to access Majors' MORE System through the Internet.

### Medical Economics

#### Jefferson East

Practical advice on how to avoid being a casualty of stress from Ilsa Krivcher, national spokesperson for Medical Economics' PDR Family Guides. She will present tips on how to recognize and control daily stress. Free copy of *PDR Family Guide to Prescription Drugs* for each librarian attendee.

### National Center for Health Statistics

(NCHS)

#### Georgetown West

NCHS CD-ROMs are a source of primary data on health statistics. How can librarians without statistical backgrounds use these data? Join us as we show how to get answers to reference questions from a National Health Interview Survey disc using SETS software, which is included on the CD-ROMs. You too can experience the "Joy of SETS"!

### Ovid Technologies

(formerly CD PLUS Technologies)

#### Lincoln Ballroom

Open to all interested librarians, this session will provide an in-depth look at our new full-text software: Ovid Full Text, the industry's first software product to provide electronic access to both the full text and graphics of several important biomedical journals. Special hypertext links and lateral searching features make the full text (including figure captions and references) of *The New England Journal of Medicine* and various other biomedical journals completely navigable. In addition, Ovid Full Text software has been integrated with a core library of bibliographic databases, enabling users to link directly and seamlessly to the full text of a document from a bibliographic citation. Attendees are encouraged to bring their lunches; Ovid Technologies will provide the refreshments.

### SilverPlatter Information, Inc.

# The ISI<sup>®</sup> Gateway

## a blueprint for the future

Rapid and radical changes are sweeping the information industry. Meeting the resulting needs and demands of the worldwide research community will require insight from today — and foresight for tomorrow. In fact, it will require a plan. Not just *talk*. But a real blueprint for the future.

ISI's advanced data-capture technology is a case in point. We're working in close partnership with the publishing and library communities in an important, exciting venture: to use that technology to build a full-text database that eventually will allow for instantaneous, electronic delivery of any research document to any workstation in the world.

Or consider our aggressive product development program. It begins with exhaustive market research: what do you, the customer, need? What format? What breadth of coverage? It ends with both new and enhanced products that make your job easier. Current Contents<sup>®</sup> on CD-ROM, custom profiles delivered via Internet, proceedings indexes on CD-ROM, the Index Chemicus<sup>®</sup> Database, to name but a few.

The blueprint doesn't end there. Other significant initiatives include a selective expansion of our editorial coverage, to provide continuing access to the most relevant, high-impact literature in all schol-

arly disciplines. Creating new software interfaces for consistent, user-friendly access to our entire electronic product line. And developing pilot projects with new technology partners to keep pace with a shifting information landscape.

And the ISI Gateway itself? It will provide the link between information seekers and the sources of scholarly research. Across all publishing channels and all disciplines, in whatever format the customer prefers.

# Parliamentary Procedures

Parliamentary rules are established to aid organizations in the orderly, expeditious, and equitable accomplishment of business. Because order and goodwill are essential to working together and achieving common goals, it is essential that association members understand parliamentary procedure. The following overview is a guide to participating in business meetings of the Medical Library Association.

## Parliamentary Authority

Article XIII of the 1994 revised Bylaws of the Medical Library Association provides that rules in the 1990 edition of *Robert's Rules of Order Newly Revised* shall govern the association in all cases where they are applicable and in which they are not inconsistent with the Bylaws of the association.

## Rules of the Assembly

The following rules govern the conduct of MLA business meetings.

## The Floor

When addressing the chair, the person desiring recognition moves to a microphone and gives proper identification, including name and institution, as well as city and state; only MLA members are permitted to speak on the floor of the assembly.

## Motions and Resolutions

Main motions (those introducing new business) may be brought to the assembly only if written copies have been distributed at least twenty-four hours before the meeting to each voting member present or by unanimous consent of voting members present. Resolutions are motions presented in formal form.

## Debate

Debate is limited to two minutes for each speaker; no speaker may have the floor twice on the same question until all who wish to speak have spoken.

## Quorum

A quorum of 250 voting members is required for the transaction of business. For purposes of determining a quorum, a person eligible to cast two votes is counted as two voting members.

## Voting

To facilitate the counting of votes, voting paddles are provided to all eligible voters attending the annual meeting. Voting paddles are color-coded to distinguish between institutional and regular members. General consent may be used as a method of voting if there is no objection. Any of the foregoing rules may be suspended by a two-thirds vote.

## Understanding Motions

Motions are classified according to their purposes and characteristics.

### Main Motions

An original main motion brings a new substantive question before the assembly for consideration and action. An incidental main motion relates to other business of the assembly or its past or future action. Incidental main motions include motions to amend something previously adopted and to rescind.

### Subsidiary Motions

These may alter the main motion and are related to it.

- Lay on the table (a temporary delay)
- Previous question (to stop debate)
- Limit or extend debate
- Postpone to a certain time
- Commit or refer to a committee
- Amend
- Postpone indefinitely (to kill)

### Privileged Motions

These have no direct connection to the main motion. They are the highest ranking motions and are designed to take care of emergencies that arise in the assembly.

- Fix the time at which to adjourn—  
set an adjourned meeting
- Adjourn
- Recess
- Question of privilege
- Call for the orders of the day

### Incidental Motions

These arise only incidentally out of business before the assembly. Most of these motions are not debatable and are handled as soon as they arise. Some incidental motions are

- Appeal from the decision of the chair
- Consider seriatim  
(consideration by paragraph)
- Division of the question
- Parliamentary inquiry
- Point of information
- Point of order

- Suspend the rules
- Withdraw a motion

### Motions That Bring a Question Again before the Assembly

- Take from the table
- Reconsider
- Rescind or amend something previously adopted

### Precedence of Motions

Precedence sets the priority of motions and the order in which they must be proposed and considered. Subsidiary and privileged motions are ranked in this descending order:

- Fix the time at which to adjourn  
(highest ranking)
- Adjourn
- Recess
- Question of privilege
- Call for the orders of the day
- Lay on the table
- Previous question
- Limit or extend debate
- Postpone to a certain time
- Commit or refer
- Amend
- Postpone indefinitely
- Main motion

Only those motions that are higher in rank than the pending motion are in order and may be made. For example, when the main motion and the motion to commit are pending, only motions of higher rank than "commit" may be moved.

### Frequently Used Motions

- To approve action:
  - Move to accept, adopt, or ratify
- To defer action:
  - Move to postpone to a definite time, refer to a committee, or lay on the table
- To extend debate:
  - Move to extend debate
- To introduce business:
  - Make a main motion
- To kill a motion:
  - Move to postpone indefinitely
- To limit debate:
  - Move to limit debate

# Parliamentary Procedures

## To make a request:

Rise to a point of information, rise to a parliamentary inquiry, or rise to a question of privilege

## To modify or change:

Move to amend by inserting, striking out, or inserting and striking out selected words

## To object to a decision of the chair:

Move to appeal

## To reconsider a vote:

Move to reconsider (you must have voted on the prevailing side the first time)

## To refer a motion for more study:

Move to refer the motion to committee

## To repeal action:

Move to rescind

## To suppress a question:

Move to postpone indefinitely or object to

consideration. Object to consideration may be applied only to original main motions and must be moved before debate begins.

## Procedure for Handling a Main Motion

1. The member goes to the microphone, waits to be recognized by the chair, addresses the chair, gives proper identification, and states the motion, "I move that..." or "I rise to..." If the member stays at the microphone until the chair calls for debate, the maker will be the first member called upon to debate.
2. Another member, without rising, seconds the motion.
3. The chair restates the motion and calls for debate.

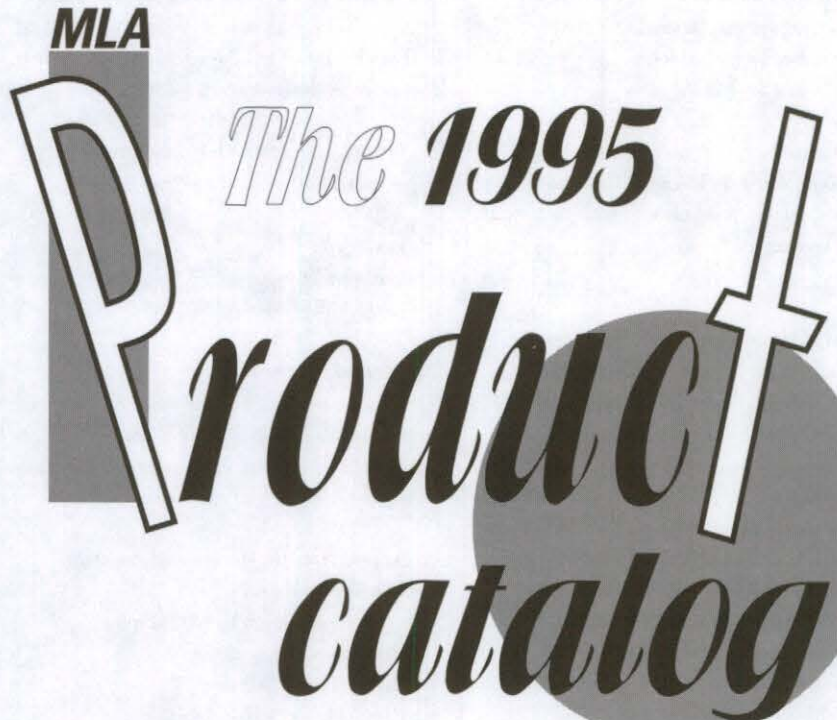

4. Members who want to debate the motion go to the microphone, wait to be recognized by the chair, then give the proper identification before beginning to debate.
5. When there is no further debate or debate is closed, the chair will take the vote, announce the vote, and declare what will happen as a result of the vote.

This parliamentary procedure outline is only a beginning guide. Detailed information on motions is found in *Robert's Rules of Order Newly Revised*, 1990 edition. Members are encouraged to ask the parliamentarian for assistance.

*about health care in the U.S.*  
FAST...

Turn to HCIA for the most accurate, timely data available.

HCIA, a leading source of health care information, maintains the most extensive data bases in the industry and updates them throughout the year. We use these comprehensive data bases to produce a complete selection of health care publications that put the information you need right at hand. Our industry benchmark resources let you measure, compare, and analyze performance for many different areas of the industry. For health care's most

*"Senior management counts on me to provide information on competitors. I turn to HCIA's data bases and tools for the answers. I wouldn't want to try to do my job without HCIA's resources."*

Former Hospital Librarian  
of the Year, MLA*

trusted management tools, rely on HCIA for accurate coding, proper reimbursement, and appropriate lengths of stay. Our directories give you access to more than 48,000 health care facilities, help you identify key industry contacts, and provide detailed facility profiles. With benchmarking and reference information covering hospitals, nursing homes, rehabilitation facilities, and more, these resources are vital additions to every medical library.

Come see us at **Booth 207A** and let us help you find the answers you need.

## Notes

## Your library is specialized. Your information system provider should be, too.

As you well know, your library is not like most others. It has distinct functions. Unique resources. So when you're choosing an information systems provider, you need someone who recognizes that. Ameritech Library Services Special Library Division does. We employ people who understand the needs and purposes of specialized libraries like yours.

So what can we provide that others can't? For starters, Ameritech offers Horizon, the leading client/server system. And if you already use a network that includes PCs as workstations and a compatible server, your Special Library team can leverage your investment by taking advantage of your existing hardware. Horizon is also scalable, so you can start small and expand later, or

begin with a global installation. Such versatility makes Horizon affordable, whether you're starting from scratch, converting existing equipment, or expanding your system to accommodate more users.

### **We adapt to your needs—not ours.**

Ameritech Special Library personnel know your industry. Some are librarians themselves. This background ensures that not only do our people listen to your needs, they also understand them. So you'll get an information system that's customized for *your* library, not just a cookie-cutter solution. To find out more about what the Ameritech Special Library Division can do for you, call (800) 228-8020 today.
