# Welcome to MLA '14

Welcome to MLA '14, the annual meeting of the Medical Library Association. The 2014 National Program and Local Assistance Committees have been working to create an array of stimulating, informative, and thought-provoking sessions, as well as to provide a hospitable atmosphere and helpful hints for enjoying all that the city of Chicago has to offer. "Building Our Information Future" is an appropriate theme, playing on the images of Chicago's skyscraping buildings as well as the concept of building our professional future around information: how information is used by and made accessible to our clients, how it is organized in our libraries, how it is managed in the form of big data, how its effective use is taught by health information professionals, and how it is gathered and analyzed to provide evidence for best practice, whether it is clinical practice, research practice, educational practice, or the practice of librarianship.

From distinguished pediatric informaticist Aaron E. Carroll's informative presentation Sunday on health care reform to playwright/actor/professor Anna Deavere Smith's theatrical performance of health issues Wednesday, you will be fascinated. In between, hospital librarian extraordinaire Margaret Moylan Bandy, AHIP, FMLA, will deliver the Doe lecture, and a panel of peers moderated by Elaine Russo Martin will give us ideas to build upon regarding our roles and services as they expand and evolve toward future practice. The traditionally highly rated sessions sponsored by MLA sections are scattered from Sunday through Tuesday, so check the program closely for those you wish to attend. Book-ending the meeting are the opening and closing social events: the Welcome Reception and Opening of the Hall of Exhibits on Saturday night and the MLA Party with a Purpose on Tuesday night. Breaks are built into the schedule and, new this year based on member requests, there is "travel time" to get from one event to another.

I encourage you to make time for networking. Informal hallway chats are often great sources of "news you can use" to take back home. You can maintain your wellness routine with the Sunrise Yoga class, as well as in the hotel's fitness center. And make a little time to explore the wonders of Chicago, many of which are close to the hotel. A fitness walk down the Magnificent Mile on Michigan Avenue is a good excuse to go shopping!

The MLA Party with a Purpose adds a new twist to the closing reception this year, and I am looking forward to participating in the auction to raise funds for the MLA Scholarship Fund, the Section Project of the Year Fund, and Chicago's Literacy Works. You can enjoy conversations with friends and colleagues and good food with the added attraction of browsing auction items and contributing to worthy causes. The silent auction actually begins Saturday in the exhibits, so you have several meeting days to see how your bids are faring. I offer a big "thank you" to everyone who has donated items or will be placing bids to make the Party with a Purpose a success! We all like to feel that we are doing something good, and MLA '14 offers us that opportunity.

Your assignments for MLA '14 are: Enjoy the meeting. Build new relationships with colleagues and vendors. Increase your knowledge. Share information with others. Participate in the work of our association. See Chicago. Let us take delight in being the architects of our information future!

—Dixie A. Jones, AHIP, MLA President, 2013/14

The 2014 National Program Committee (NPC) and the Local Assistance Committee (LAC) welcome you to Chicago and to a newly renovated Hyatt Regency Chicago! "Building Our Information Future" pays tribute to the beauty and strength of Chicago architecture. Our theme affords us abundant metaphors to reflect on how the foundations we have built continue to inform the present and future of our profession and the spaces we work in. Those enduring structures provide the pillars that support the innovation needed as we design the blueprint for future information roles, services, and spaces.

MLA '14 plenary speakers will inspire us to respond to a changing health care and information environment. Throughout the meeting, we encourage you to build your knowledge and explore new heights by attending contributed paper and poster sessions presented by MLA members. The Educational Media and Technologies Section's "flipped program" offers a new program design with premeeting content that allows meeting time for small-group, author-facilitated discussions. Wednesday's expert panel and Anna Deavere Smith's performance will spur us to think creatively about opportunities for new and expanded roles.

Get some Chicago spirit and meet old and new friends at the Welcome Reception and Opening of the Hall of Exhibits! Meanwhile, we predict some friendly bidding wars at the MLA Party with a Purpose at the Tuesday reception and silent auction! In addition to benefitting MLA causes, a third of the proceeds will go to Chicago's Literacy Works, which strengthens the quality of adult literacy, parent education, and workforce development programs. Each year, nearly 1,000 trainees at community-based organizations gain knowledge and confidence to enhance the work they do with over 15,000 adult learners.

The Hyatt Regency Chicago affords the convenience and comfort of a meeting "under one roof," but it is also perfectly situated for sight-seeing. Many of Chicago's iconic attractions are within walking distance, including museums, architectural treasures, theater, shopping, and restaurants! In addition, there is much new since our last meeting in Chicago. Do not miss the new Modern Wing of the Art Institute of Chicago designed by Renzo Piano or a tour of the Joe and Rika Mansueto Library at the University of Chicago. LAC volunteers will help you design your own blueprint for enjoying the city with the *Restaurant Guide*, meeting blog, dine-arounds, tours, and special events.

We thank all the members of the NPC and LAC, everyone who donated to the auction, and members who contributed the content building blocks of a skyscraping meeting! Please take the opportunity to thank our sponsors when visiting the exhibits. Their generous support improves the meeting in so many ways. A sponsor list appears on page 12.

We hope you will take advantage of the many learning experiences, the shared stories, and the chance to build new colleague connections and cement long-lasting MLA friendships and partnerships. Social networking will be easy with free WiFi throughout the meeting facilities! Use the hashtag #mlanet14 on Twitter to follow and contribute to the conversation with those at the meeting and those attending online.

Look for NPC and LAC members—we will be the ones in the brightly colored construction hats!

# Featured Speakers

**Sunday, May 18, 10:30 a.m.–noon**

**John P. McGovern Award Lecturer: Aaron E. Carroll, MD**

*Sponsored by EBSCO*

**“The Affordable Care Act: Health Care Reform Is Far From Over”**

Aaron E. Carroll, MD, has published some of the seminal works on physician views on various types of health care reform and has been called on to appear on national television and radio programs, including the *Colbert Report*, to talk about the Affordable Care Act. Carroll is an associate professor of pediatrics at the Indiana University School of Medicine. He is also the director of the Center for Health Policy and Professionalism Research.

Carroll’s research focuses on the study of information technology to improve pediatric care and areas of health policy including physician malpractice, the pharmaceutical industry–physician relationship, and health care reform. He has published on the relationship between the pharmaceutical industry and health professionals, and how educational interventions can affect their interaction and behavior.

Carroll was one of the first to study the use of mobile devices in actual care. He is one of the leading pediatric informaticists in the United States. Carroll is also the cofounder of Medical Data Solutions, one of the first software companies to create programs for health professionals for mobile devices, and the coauthor of *Don’t Swallow Your Gum: Myths, Half-Truths, and Outright Lies about Your Body and Health* and *Don’t Cross Your Eyes...They’ll Get Stuck that Way!*

**Monday, May 19, 9:00 a.m.–10:00 a.m.**

**Janet Doe Lecturer: Margaret Bandy, AHIP, FMLA**

**“Pivoting: Leveraging Opportunities in a Turbulent Health Care Environment”**

Margaret Moylan Bandy, AHIP, FMLA, has worked as medical librarian and manager of library and knowledge services at Exempla Saint Joseph Hospital in Denver, CO, since 1979. She served on the MLA Board of Directors from 2005–2008 and was board liaison to the Task Force on Vital Pathways for Hospital Librarians, contributing to the final report of the committee and the 2009 Vital Pathways Symposium published in the *Journal of the Medical Library Association*.

Considered a leader in patient and consumer health information, Bandy established the first hospital-based consumer health library in Denver in 1985. Bandy has served as an officer and committee member for many committees at the national, regional, and state level, including as chair of the Midcontinental Chapter of MLA (MCMLA) and chair of the Consumer and Patient Health Information Section. As chair of the Hospital Libraries Section Standards Committee, she led the revision of “Standards for Hospital Libraries 2007.” As president of the Colorado Council of Medical Librarians in 2003, she established a committee to respond to the crisis facing hospital libraries in Colorado. That committee developed the “Myths and Truths about Library Services” materials for the MLA Vital Pathways website.

She has received a number of awards including the MCMLA Outstanding Achievement Award, the Lois Ann Colaianni Award for Excellence and Achievement in Hospital Librarianship, and the Marla M. Graber Award for Excellence and Achievement in Health Sciences Librarianship from the Colorado Council of Medical Librarians. With Rosalind Farnam Dudden, AHIP, FMLA, Bandy coedited the *Medical Library Association Guide to Managing Health Care Libraries*, 2nd edition, which received the Ida and George Eliot Prize in 2012.

## MLA '14 Panel

### Professional Identity Reshaped

Environmental factors in the areas of information, technology, health care, and the economy have accelerated a new cycle of change in the roles of health sciences librarians, challenging our notions of services, policies, collections, and definition of library space. Librarians have responded with new professional roles, redesigned service models, embedded liaisons, transformed collections, enabling technologies, and retrofitted spaces. These changes lead us to ask questions about our professional identity and our professional home, such as do we need a library to be a librarian? Potential new roles, whatever they may be called, will continue to showcase the value of health sciences librarians' skills and our expert ability to retrieve, access, and evaluate information throughout the scholarly communication process. Panelists will share how they are advancing our field by laying the foundations for broader definitions of librarianship and expanded roles for our professional practice:

- Elaine Russo Martin, DA, director, Library Services, and director, National Network of Libraries of Medicine, New England Region, Lamar Soutter Library, University of Massachusetts Medical School–Worcester, will provide an overview of the current environment and moderate the session.
- Margo Coletti, AHIP, director, Knowledge Services, Beth Israel Deaconess Medical Center, Boston, MA, will address knowledge management in the clinical setting.
- Neil Rambo, director, NYU Health Sciences Libraries, New York University School of Medicine, NYU Langone Medical Center–New York, will explore ideas about what a library and library services might look like if we “built it from scratch.”
- Jackie Wirz, PhD, biomedical research specialist, OHSU Library, Oregon Health & Science University–Portland, will discuss embedded librarians in a variety of settings, the non–master’s of library science perspective, and library support for translational and team science.

## Anna Deavere Smith

Playwright, actor, and professor Anna Deavere Smith uses her singular brand of theatre to highlight issues of community, character, and diversity in America. *Newsweek* declared her “the most exciting individual in American theatre.”

Best known for crafting one-woman, multicharacter plays about American social issues, Smith has been awarded the 2013 Dorothy and Lillian Gish Prize, one of the largest and most prestigious awards in the arts, as well as the National Humanities Medal. The MacArthur Foundation honored Smith with the “Genius” Fellowship for creating “a new form of theatre—a blend of theatrical art, social commentary, journalism, and intimate reverie.”

Smith’s most recent play, *Let Me Down Easy*, examines health care and the resilience and vulnerability of the human body. Opening in 2009, *Easy* aired on PBS’s *Great Performances* in 2012. Interviewing real people from all walks of life, Smith turns their words into scripts, transforming herself into an astonishing number of characters.

In 1997, Smith founded the Institute on the Arts & Civic Dialogue at Harvard, which is now known as Anna Deavere Smith (ADS) Works. ADS Works “cultivates artistic excellence that embraces the social issues of the day.”

A tenured professor at the New York University (NYU) Tisch School of the Arts, Smith is also affiliated with the NYU School of Law. The winner of the 2006 Fletcher Foundation Fellowship for her contribution to advancing civil rights, Smith won a Matrix Award from New York Women in Communications, a Fellow Award in Theatre Arts from United States Artists, and the United Solo Theatre Festival’s inaugural award. The artist-in-residence at the Center for American Progress, Smith is writing a new play, *The Americans*.

## Online Schedule and Recordings of Meeting Sessions

View the meeting schedule online at [www.eventscribe.com/2014/mla/](http://www.eventscribe.com/2014/mla/). If you are a paid meeting registrant, you can login to save your custom plan and access meeting recordings. Plenary sessions are video-recorded and posted online about twenty-four hours after the session. Most other sessions are audio-recorded and synchronized with PowerPoint slides, which are posted online about five days after the session to allow time for editing. Posters can be seen in the ePoster Gallery about two weeks before the meeting, based on when authors upload their posters. For access go to [www.eventscribe.com/2014/mla/](http://www.eventscribe.com/2014/mla/). To login, use your six-digit badge number that is printed on your confirmation letter and badge and the email address you used to register for the meeting.

## Travel Safety

To enjoy your stay, please take a few moments to read the Safety Tips for Annual Meeting Attendees online at [www.mlanet.org/am/am2014/travel/safety-tips.html](http://www.mlanet.org/am/am2014/travel/safety-tips.html).

## Voting Rights

You are eligible to vote at the MLA business meeting if you hold an MLA membership in at least one of these categories: Regular (including Introductory), Life, Fellow, Emeritus, Student, or authorized Institutional Representative. Voting paddles are available at the MLA Registration Center.

## WiFi

MLA offers free WiFi throughout the meeting areas at the Hyatt Regency Chicago for personal use by attendees to check email, the blog, and their online schedules, and to surf the Internet. As a courtesy to others, please do not monopolize bandwidth with large downloads such as movies and videos. Attendees who booked their hotel room in the MLA room block receive free in-room WiFi.

## Sunrise Seminars

### Quality vs. Evidence vs. Research vs. Innovation: Embracing All Types of Clinical Inquiry

📍 Acapulco, Gold Level, West Tower

Do health care professionals at your institution understand the difference between all types of clinical inquiry, that is, quality, evidence, research, and innovation? Further, do they also understand how clinical inquiry ties back to your institution's standards of practice, regulatory requirements, and American Nurses Credentialing Center (ANCC) Magnet initiatives? Learn how librarians and health care professionals can work together to develop strategies to enhance staff knowledge about clinical inquiry, as well as ways to improve institutional knowledge and care outcomes.

Speaker: Daphne Stannard, Director and Chief Nurse Researcher, Institute for Nursing Excellence, University of California–San Francisco Medical Center

### Seven Things Librarians Forget When Choosing an Integrated Library System (ILS)

📍 Columbus AB, Gold Level, East Tower

Join EOS for a presentation about the seven things often forgotten by librarians searching for a new ILS. Bryan Long, account executive and former library technician, will present "Seven Things Librarians Forget When Choosing an ILS." His presentation will cover several key factors that anyone looking for a new system or thinking about looking will not want to miss!

7:00 a.m.–8:55 a.m.

### Sunrise Yoga

*Sponsored by the Complementary and Alternative Medicine SIG and cosponsored by the Hospital Libraries Section*

📍 Buckingham, Bronze Level, West Tower

Do you want to rejuvenate your mind and body? Attend Sunrise Yoga, which is open to all and will be oriented toward all levels as a nice respite during MLA '14. This one-hour class will be led by Daina R. Bouquin. The data and metadata services librarian at Weill Cornell Medical College at Cornell University, Bouquin is also an experienced yoga instructor in Kripalu and Hatha yoga. Wear comfortable clothing and bring a yoga mat, if you have one. Some spare yoga mats and towels will be available. Any donations will go toward support of the instructor, but the class is free and welcomes everyone.

9:00 a.m.–10:00 a.m.

### American Psychological Association (APA) Sunrise Seminar

 Columbus AB, Gold Level, East Tower

Join us for an early morning APA countdown, where we will focus on resources for health sciences research, patient education, and clinical practice. We will update you on what is new, demonstrate some sample searches, and introduce a few of our new journals. For more information and to RSVP, visit [www.apa-sunrise.eventbrite.com](http://www.apa-sunrise.eventbrite.com).

### Coffee Talk: How to Enable Patient-Centered Care

 Columbus CD, Gold Level, East Tower

As the business of hospitals becomes more competitive, patient satisfaction and patient wait time are highly strategic benchmarks that play in to the Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) scores. But how can the library support these initiatives? Join Swets for breakfast as we host an open discussion regarding how you are getting involved with patient-centered care and affecting the effort to improve outcomes, eliminate misdiagnoses, and trim readmissions at your facility.

### Embase: Current, Comprehensive, and Colorful

 Columbus IJ, Gold Level, East Tower

Join the Embase team to hear the latest on content and indexing, what has been done to optimize your combined Embase/MEDLINE searches and what to look out for in 2014 in Embase. A special guest speaker will talk us through their experience of using Embase for systematic reviews. Breakfast will be available, and we look forward to welcoming you to our 2014 Sunrise Seminar.

#### Cochrane from "Inside/Outside": Update from Carol Lefebvre

- Columbus AB, Gold Level, East Tower

Carol Lefebvre, independent information consultant and Cochrane Information Retrieval Methods Group co-convenor, will provide an "insider's" look at Cochrane from a library/information perspective and outline how the Cochrane Library continues to be an essential tool for evidence-based medicine. As an "outsider" from the publisher, Wiley, she will present an independent view.

#### EBSCO Discovery Service for Hospitals and Medical Schools

- Columbus EF, Gold Level, East Tower

Discovery services are typically designed for undergraduate students and are completely unacceptable for users of medical libraries. Come learn how one vendor made a massive investment in technology resources to do something different: to make discovery useful for medical students, medical faculty, doctors, nurses, researchers, and even medical librarians.

#### Rittenhouse's R2 Digital Library: A Science, Technology, Medicine (STM) E-Book Platform

- Columbus CD, Gold Level, East Tower

Join us to see how Rittenhouse's e-book platform, the R2 Digital Library, can provide the tools you need to manage a health sciences e-book collection. Learn about our new personal digital assistant (PDA) service and how R2 can be easily integrated with your institution's workflow.

### Open Forums

#### Open Forum: Bad Presentation Bingo: The Communication Game You Want to Lose

*Sponsored by Public Services Section and Educational Media and Technologies Section*

↳ Columbus KL, Gold Level, East Tower

Your professional role will most likely at some point require presenting information to others. Those “others” often include people outside your field of expertise, making communication more challenging. Academic and professional training rarely includes communication skills and how to give good presentations, which, of course, can lead to painfully dull, ineffective, and time-wasting presentations. Fortunately, effective strategies for giving effective and appealing talks are not hard to grasp or put into practice. This open forum will use an engaging “bingo” game to explain good, bad, and horrendous presentations strategies; provide tips for mastering them; and highlight resources available for attendees to use before their next presentations.

#### Open Forum: Futures Task Force

↳ Columbus IJ, Gold Level, East Tower

Join the MLA Futures Task Force for an open forum discussing the work of the task force to date and your thoughts on the update and also the future of the association.

#### Open Forum: Introducing the MLA International Job Exchange Program

↳ Columbus GH, Gold Level, East Tower

Are you interested in learning medical librarianship from a different cultural perspective, either first-hand or through interaction with a fellow librarian from another country in your own library? Come to this open forum to learn more about the new international job exchange program offered by the MLA International Cooperation Section, in collaboration with medical library associations that have bilateral agreements with MLA.

The program will enable medical librarians and their institutions to provide the best information and services possible to medical professionals and health consumers globally. By facilitating a job exchange, MLA hopes to foster international cooperation, communications, awareness, exchange of ideas, and professional excellence.

Bring your questions and ideas to this open forum and considering participating by submitting an application.

## Open Forum: What Would You Do? Ethics in Action

📍 Acapulco, Gold Level, West Tower

Join the MLA Ethical Awareness Task Force to get a first report on the results of the membership Ethics Survey conducted last September. In addition to this report, the task force will present several ethically challenging WWYD (“What would you do?”) scenarios for discussion by table groups during and after the forum. Copies of the Code of Ethics for Health Sciences Librarianship will be available for reference.

4:30 p.m.–5:55 p.m.
