OXFORD
UNIVERSITY PRESS

Welcome to Austin, the "Live Music Capital of the World!" MLA '15 is sure to be one of our more intellectually challenging meetings, with speakers who include an astronaut, a neurologist, a policy research specialist in communications, and a librarian. There are no limits to what we can expect to learn, debate, and adapt as we interact not only with our speakers, but also with our colleagues presenting papers, posters, and panels.

Music continues to remind me that its boundaries are limitless.

—Haley Reinhart

as information professionals. Be sure to take a break sometime while in Austin to listen to live music and let your imagination reflect on the many new ideas you are learning while at the meeting. Invite a new member or someone you just met to come along with you and share your ideas with them too. Remember the Texas motto is "Friendship."

Can you believe it? Our John P. McGovern Award Lecturer, Mae Jemison, is an astronaut and a physician. The 2015 National Program Committee is genius! Who better to talk with us about the limitless opportunities we have through science and technology than someone who has traveled in space and focuses on global health and science literacy. Her experience without limits will surely inspire many of us to think beyond the now and consider the many possibilities that we have to use our skills and expertise to expand how we can contribute to health care and research.

For as the eyes of bats are to the blaze of day, so is the reason in our soul to the things which are by nature most evident of all.

—Aristotle

If you prefer nature over music, consider visiting the largest urban bat colony in the world. Gather one night with others to watch 1.5 million Mexican free-tailed bats shoot out from under the Ann W. Richards Congress Avenue Bridge. The bridge is only a few blocks from the Austin Convention Center and the many surrounding hotels.

So there you have it, *Keep Austin Weird* and know that through the rich variety of education, entertainment, and friendships established at MLA, we are librarians without limits and will continue to challenge new ideas, seek more knowledge, and create an exciting new world of health care information and resources.

Linda Walton, AHIP, MLA
President 2014/15

As we acquire more knowledge, things do not become more comprehensible, but more mysterious.

—Albert Schweitzer

Listen to the mustn'ts, child. Listen to the don'ts. Listen to the shouldn'ts, the impossibles, the won'ts. Listen to the never haves, then listen close to me...Anything can happen, child. Anything can be.

—Shel Silverstein

On behalf of the 2015 National Program Committee (NPC), we welcome you to MLA '15, the first ever hosted in the capital of the state of Texas, Austin. You are invited to take part in the myriad opportunities to share ideas, reconnect with colleagues, make new friends, and celebrate the unique potential creativity and ingenuity of "Librarians without Limits."

Throughout the planning process, the 2015 NPC has been committed to creating a uniquely Austin experience, from the opening of the Hall of Exhibits that pays homage to *Austin City Limits* and the city's reputation as the "music capital of the world" to the outstanding plenary session speakers, including the Janet Doe and Joseph Leiter NLM/MLA Lecturers, through to the fun-filled closing event, when MLA goes Monte Carlo. We are sure that the results will be evident in the peer-reviewed contributed papers and posters, chapter sharing roundtable discussions, lightning talks, open forums, and updates. You will have an opportunity to meet face to face with over eighty exhibitors. Continuing education opportunities before and immediately following the meeting are set to round out the experience.

Don't forget to check the MLA '15 blog (npc.mlanet.org/mla15/) throughout the meeting for the latest information. A creative team of bloggers are standing by to bring you news from the plenary sessions, exhibits, section and special interest group programs, and more.

Before you leave, take time out to soak up some Texas history, to join in one of the city's many runs (the "Brew Run" looks interesting), to sample some Austin night life on Sixth Street, to taste the food from at least 1 of the 1,000 food trucks in the city, or to share in the experience of witnessing the nightly exodus of the world's largest colony of bats emerging from the Ann W. Richards Congress Avenue Bridge. Austin is a dynamic city with something wild, weird, and fun for everyone.

Time to test your limits!

Featured Speakers

Sunday, May 17
10:30 a.m.–11:55 a.m.

John P. McGovern Award Lecturer: Mae Jemison

Sponsored by EBSCO Health

Mae Jemison, the first woman of color in the world to go into space, served 6 years as a NASA astronaut. She is currently leading 100 Year Starship (100YSS), an initiative seed-funded by the Department of Defense's Defense Advanced Research Project Agency (DARPA) to ensure that the capability for human interstellar space travel to another star is possible within the next 100 years. She also is founder of the technology consulting firm, The Jemison Group, that integrates the critical impact of sociocultural issues when designing and implementing technologies, such as using satellite technology for health care delivery in West Africa and solar dish Stirling engines for electricity generation in developing countries.

A committed voice for science literacy, in 1994 Jemison founded the international science camp The Earth We Share™ (TEWS) for students 12–16 years old from around the world, and founded and chairs the Dorothy Jemison Foundation for Excellence, a 501(c)3 organization. Prior to NASA, Jemison was area Peace Corps medical officer for Sierra Leone and Liberia for two and a half years, overseeing the health care system for the Peace Corps and State Department in Sierra Leone. A general practice doctor in Los Angeles, Jemison earned her medical degree from Cornell University.

Monday, May 18
9:00 a.m.–10:00 a.m.

Janet Doe Lecturer: Barbara A. Epstein, AHIP

Barbara A. Epstein, AHIP, is director of the Health Sciences Library System (HSLs) at the University of Pittsburgh and director of the Middle Atlantic Region of the National Network of Libraries of Medicine (NN/LM MAR). She began her career at the Western Psychiatric Institute and Clinic (WPIC) in Pittsburgh, PA. During her time at WPIC, she was a leader in professional activities related to mental health librarianship, serving as chair of the MLA Mental Health Librarians Section and president of the Association of Mental Health Libraries.

Epstein is a Distinguished Member of the Academy of Health Information Professionals and has served as Chapter Council and Section Council representative, Pittsburgh Regional Chapter chair, Continuing Education Committee chair, Leadership and Management Section chair, and Scholarly Communications Committee chair. She is also active in the Association of Academic Health Sciences Libraries (AAHSL). Epstein has an active interest in professional development for health sciences librarians and has been co-principal investigator on two grants in this area. Epstein has authored numerous articles, book chapters, and presentations, and was awarded MLA's Ida and George Eliot Prize in 1981 for a paper she coauthored on Joint Commission accreditation and the hospital library.

Wednesday, May 20
9:00 a.m.–10:00 a.m.

Joseph Leiter NLM/MLA Lecturer:
Ann McKee

Ann McKee is a board certified neurologist and neuropathologist with extensive experience in neurodegenerative disease, particularly in traumatic brain injury and its long-term consequence, chronic traumatic encephalopathy. McKee serves on the Medical Advisory Board for the Sports Legacy Institute and the Mackey-White Traumatic Brain Injury Committee for the Players' Association of the National Football League. McKee has received numerous awards for her research, including the Cleveland Neuroscience Research Award, multiple Moore Awards from the American Association of Neuropathologists, and the 2012 Impact Award from the Sports Legacy Institute.

Wednesday, May 20
10:30 a.m.–noon

Plenary Session IV Speaker:
Eszter Hargittai

Sponsored by The JAMA Network

Eszter Hargittai is the April McClain-Delaney and John Delaney Research Professor in the Communication Studies Department and faculty associate of the Institute for Policy Research at Northwestern University, where she heads the Web Use Project.

Hargittai's research looks at how people may benefit from their digital media uses, with a particular focus on how differences in people's web-use skills influence what they do online. Hargittai has published close to fifty peer-reviewed journal articles and eighteen book chapters. Hargittai is editor of *Research Confidential: Solutions to Problems Most Social Scientists Pretend They Never Have* (University of Michigan Press 2009), which presents a rare behind-the-scenes look at doing empirical social science research. She writes an academic career advice column at Inside Higher Ed called Ph.Do.

She is an award-winning photographer, and people she does not know have been willing to part with their money to own some of her paintings. In November 2014, she was named Player of the Week on the GPS-based game Munzee. She tweets @eszter.

Online Access to Recordings of Meeting Sessions

As a paid meeting registrant, using your computer and/or handheld device and an Internet connection, you can have an online view of the total meeting. You can view sessions, exhibitor information, abstracts, author biographies, posters, a list of attendees, and plan your time and create a personal schedule to maximize every moment at MLA '15. You can even search speaker sessions and exhibitor information in a variety of ways, including by time, date, keyword, speaker, or booth number. You can use the mobile app, available for iOS and Android devices as a native mobile app, to view session slides and even take notes right on the slides.

Within about twenty-four to seventy-two hours after a session ends, you can view video (plenary sessions) and audio synced with presentation slides (section programs). For more information, see www.eventscribe.com/2015/MLA/. To login, you will need your six-digit badge number printed on your registration confirmation and on your badge along with the email address you used to register.

Relaxation Station

Sponsored by McGraw-Hill Medical

 Austin Convention Center, Exhibit Hall 4, Booth 203

Take the stress out of the meeting with a seated chair massage.

Resume Clinic

📍 Austin Convention Center, Level Four, Room 11

The Professional Recruitment and Retention Committee, in conjunction with the MLA '15 Job Placement Center, will sponsor the Resume Clinic. If you have a cover letter, resume, and/or CV you would like to have reviewed, please stop in. Each participating attendee will have fifteen to twenty minutes with a reviewer. During that time, the reviewer will critique your cover letter, resume, and/or CV and offer tips and advice for improvement.

The resume clinic is available during MLA Job Placement Center hours on Sunday, May 17, Monday, May 18, and until noon on Tuesday, May 19. You must be a registered MLA '15 attendee to use this service. Walk-ins are welcome and will be scheduled in any available slots.

Speaker Ready Room

📍 Austin Convention Center, Level Four, Room 12B

All speakers must check in at the Speaker Ready Room the day before their sessions to make sure the correct presentation is loaded.

Speaker Ready Room Hours

Saturday, May 16	noon–6:00 p.m.
Sunday, May 17	8:00 a.m.–6:00 p.m.
Monday, May 18	8:00 a.m.–6:00 p.m.
Tuesday, May 19	8:00 a.m.–6:00 p.m.
Wednesday, May 20	8:00 a.m.–10:30 a.m.

INTRODUCING!

AMERICAN JOURNAL OF HEALTH ECONOMICS

The *American Journal of Health Economics (AJHE)* provides a forum for the in-depth analysis of institutional health care systems and individual health behaviors. The journal will permit high-quality review of topics, both theoretical and applied, which cannot be examined as fully by general economic publications.

AJHE articles are authored by scholars from universities, private research organizations, government, and industry. Subjects of interest include competition between private health insurance providers, the impact of the Affordable Care Act, pharmaceutical regulation, medical device supply, the rise of obesity, the influence and growth of aging populations, and much more.

Frank Sloan, Editor

Published by the MIT Press as the official journal of the American Society of Health Economists (ASHEcon).

Quarterly | Winter, Spring, Summer, Fall | 144 pp. per issue | 6 x 9 | ISSN 2332-3493 | E-ISSN 2332-3507

Thieme e-Suites: Multimedia Platforms in Clinical Medicine

📍 ACC, Level Four, Room 19B

Thieme e-Suites: multimedia platforms in clinical medicine. In this seminar, we will cover the content and functionality of Thieme's four new offers: Medlantis provides access to Thieme's entire radiology collection along with videos of classroom lectures on key topics in radiology, creating an exceptionally rich online experience. Thieme eNeurosurgery is a unique online resource providing the global neurosurgical community with unprecedented access to Thieme's entire neurosurgery collection, including content not available anywhere else. Thieme eOtolaryngology is the premier online research tool for otolaryngology—head and neck surgery—providing users with unprecedented access to Thieme's complete collection of otolaryngology resources. Thieme eSpine offers comprehensive spine care resources at your fingertips, providing users with unprecedented access to Thieme's entire spine collection.

Unleashing the Value of Grey Literature in Research Practice

📍 ACC, Level Four, Room 12A

Information discovery for the most important evidence is an essential skill for information professionals. Most searching focuses on the published research from journals. Finding and incorporating grey literature search results with published literature is an increasingly essential part of the process. Find out how grey literature can be quickly searched and disseminated for all types of research requests. We will review detailed search methods used for a systematic or scoping review. There will also be tips on how to use a quick search method to find grey literature sources for reference questions. Speaker: Sarah Bonato, Reference/Research Librarian and Collection Development Librarian, Centre for Addiction and Mental Health.

The AccessMedicine Collections: New Approach to Reference, Research, and Curricular Instruction

📍 ACC, Level One, Exhibit Hall 4, Technology Showcase Stage

The AccessMedicine Collections from McGraw-Hill Medical are compendiums of specialized content that cover a subject's basics to specialty-specific content. With the Neurology and ObGyn Collections launched and future collections being assembled now, you can truly have the broad world of medical knowledge available to you. The collections editor will demonstrate the product to show how this content can help students excel in their

clerkships; assist residents in strengthening their skills with instant access to procedural videos, self-assessment, and leading texts that will establish a solid base for learning; enable program directors to create, track, and report their students' progress through a custom curriculum tool; and allow practicing physicians to reinforce their medical knowledge for recertification.

Come see what's new with ClinicalKey!

Learn how ClinicalKey can support you in driving collaboration and standardization among care teams. ClinicalKey is a clinical search engine that supports decisions of physicians and nurses by connecting them with the best of everything: concise, trusted answers when every second counts, and deep access to current evidence whenever, wherever they need it.

We look forward to seeing you there!
