Welcome to the 118th Annual Meeting of the Medical Library Association (MLA)—a unique opportunity to enhance your ability to Adapt, Transform, and Lead!

The 2018 National Program Committee has planned an exciting line-up of featured speakers, contributed papers, posters, lightning talks, special

content sessions, continuing education, and networking events. Learn about MLA achievements, initiatives, and future plans at open forums and business meetings. Our vendor partners are pleased to talk with you about their products and services in the Hall of Exhibits, during Sunrise Seminars, or during Lunch & Learn demonstrations.

Plan to attend the four plenary sessions, featuring noted speakers:

- John P. McGovern Award Lecturer William Powers, writer, journalist, technologist, and author of the best seller with the intriguing title: *Hamlet's BlackBerry: Building a Good Life in the Digital Age*
- Janet Doe Lecturer Elaine R. Martin, FMLA, director of the Countway Library at Harvard University and a notable leader and creative thinker for our profession
- Dara Richardson-Heron, MD, chief engagement officer of the All of Us Research Program of the National Institutes of Health (NIH)
- David Satcher, MD, PhD, who has served as the sixteenth surgeon general of the United States and director of the Centers for Disease Control and Prevention, and is currently the founding director and senior advisor for the Satcher Health Leadership Institute at the Morehouse School of Medicine

New this year, we are partnering with the Public Library Association and the Greater Midwest Region of the National Network of Libraries of Medicine to offer a concurrent symposium on Health Information for Public Librarians on Tuesday and Wednesday.

MLA attendees who are interested in consumer health will have the opportunity to learn about precision medicine and the NIH All of Us research program, and to connect with public librarians who are interested in offering health information services to their communities.

Another change this year will be presentation of awards and recognitions during the welcome on Sunday morning and business session on Tuesday.

And—finally—don't miss the Silver and Gold Networking Dinner on Tuesday evening, a wonderful chance to meet new colleagues and connect with old ones!

We guarantee you will return home with new knowledge, new ideas, new enthusiasm, and new friends!

Barbara A. Epstein, AHIP, FMLA  
2017/18 MLA President

On behalf of the 2018 National Program Committee and the Local Assistance Committee, we officially welcome you to Atlanta—the first time for an MLA annual meeting! Our theme—ATL: Adapting | Transforming | Leading—reflects both the vibrant location and the spirit of our membership, and the rising phoenix in our logo reflects the rise of Atlanta to become the exciting leader in commerce, health care, research, education, and entertainment that it is today. As medical librarians, we, too, are continually evolving and searching for new and innovative ways to grow, change, reimagine, and, most of all, make a difference. We know you will be inspired by the programming and the many opportunities to connect and share with colleagues during your stay in this amazing city. We hope you will get out and about and explore the world just outside the doors of the Hyatt Regency Atlanta.

There is something for everyone in Atlanta: art, culture, history, outdoors, professional sports, and don't forget fantastic food! The Metropolitan Atlanta Rapid Transit Authority (MARTA) is right next door to our location, providing an easy way all around the city. The weather should be balmy and beautiful, perfect for checking out the Atlanta Botanical Garden, Zoo Atlanta in Grant Park (panda twins!), or beautiful Piedmont Park. History comes alive at the Jimmy Carter Presidential Library and Museum, the Center for Civil and Human Rights, and the Martin Luther King Jr. National Historic Site. News junkies can visit the CNN Center, and aviation enthusiasts can see rare planes from past eras at the Delta Flight Museum. If culture is calling, you can see more than 13,000 modern and contemporary works at the High Museum of Art or attend the Atlanta Symphony Orchestra, who will be performing Leonard Bernstein's *Candide* during our stay. The list goes on and on: tour historic Oakland Cemetery, attend a Major League Baseball game (Atlanta Braves vs. Florida Marlins, May 18–20) or Major League Soccer game (catch the Atlanta United FC vs. New York Red Bulls on May 20), visit the World of Coca-Cola, and, of course, do not miss the world famous Georgia Aquarium.

Did we mention great food? And shopping? The Local Assistance Committee has provided a comprehensive dining guide to the city (including walking distance and ride share notations). The options are endless. *Travel + Leisure* says, "The city has become a genuine cultural and culinary destination—witness the buzzworthy restaurant scene, incorporating everything from grits to foie gras."

We are so excited that you are here for the very first MLA in Atlanta. We are certain you will learn, share, mingle, and network, but most of all have a wonderful and fun experience in this diverse, exciting, and happening city!

# FEATURED SPEAKERS

**Sunday, May 20, 9:00 a.m.–10:15 a.m.**

## Presidential Address: Barbara A. Epstein, AHIP, FMLA

Barbara A. Epstein, AHIP, FMLA, is director of the Health Sciences Library System (HSL) at the University of Pittsburgh, and director of the Middle Atlantic Region of the National Network of Libraries of Medicine.

Epstein has been a leader for MLA, currently serving as president. She has chaired committees, sections, and a chapter, and is a Distinguished Member of the Academy of Health Information Professionals. She has also been active in the Association of Academic Health Sciences Libraries (AAHSL), having served on the Board of Directors and the Joint MLA/AAHSL Legislative Task Force. Epstein has an active interest in professional development for health sciences librarians. She has been a mentor in the National Library of Medicine/AAHSL Leadership Fellows Program and an instructor in the AAHSL New Directors Symposium.

In her address on Sunday morning, Epstein will report on MLA activities and initiatives, and reflect on her presidential experience during the past year.

**Monday, May 21, 9:00 a.m.–10:00 a.m.**

## Janet Doe Lecturer for 2018: Elaine R. Martin, FMLA “Social Justice and the Medical Librarian”

Elaine R. Martin, FMLA, joined the Countway Library as the director and chief administrative officer in October 2016. In this role, she oversees a complex organization and one of the largest collections of both current medical research materials and historical and rare collections in the world, holding more than 630,000 volumes. The Countway Library serves faculty, staff, and students at the Harvard Medical School, Harvard University, and its affiliated hospitals; the Harvard T. H. Chan School of Public Health; the Harvard School of Dental Medicine; and members of the Massachusetts Medical Society.

At the Countway Library, Martin is responsible for providing leadership in strategic planning, development, and promotion of library resources and services. She also serves as the key library representative working closely with the university to embrace best practices and ultimately design the flagship health sciences library of the 21st century.

Previously, Martin was employed with the Lamar Soutter Library at the University of Massachusetts Medical School–Worcester, where she had been the director of library services since 1998, leading the library through a period of transformational change. She also served as the director of the New England Region of the National Network of Libraries of Medicine.

An adjunct instructor at the Simmons College Graduate School of Library and Information Science, Martin teaches courses in medical librarianship, research data science, and library management. She has written and published extensively in the areas of outreach and data science librarianship. She is the founding editor of the *Journal of eScience Librarianship*.

**Sunday, May 20, 10:30 a.m.–11:55 a.m.**

## John P. McGovern Award Lecturer: William Powers

*Sponsored by EBSCO Health*

## “Reviving the Human: Libraries in the Age of Artificial Intelligence”

William Powers is the author of the New York Times bestseller, *Hamlet's BlackBerry: Building a Good Life in the Digital Age*. Widely praised for its insights on the digital future, the book has been published in many other countries and languages. He is currently a research scientist at the Laboratory of Social Machines at the MIT Media Lab, where he is developing new technologies for journalism, governance, and the public sphere.

A former *Washington Post* staff writer, he is a two-time winner of the National Press Club's Arthur Rowse Award for Press Criticism for best American media commentary. He has been a keynote speaker at South by Southwest, the Aspen Ideas Festival, and many other conferences and organizations. He is married to writer Martha Sherrill, and they live in Massachusetts with their son.

**Tuesday, May 22, 9:00 a.m.–10:25 a.m.**

## Presidential Inaugural Address: Beverly Murphy, AHIP, FMLA

Beverly Murphy, AHIP, FMLA, is the assistant director for communications and web content management at the Duke University Medical Center Library & Archives and the hospital nursing liaison for the Duke Health System and Watts School of Nursing.

Murphy—a Distinguished Member of the Academy of Health Information Professionals, MLA Fellow, and MLA president-elect—has served in a variety of capacities for the association, including as a member of the Board of Directors; *MLA News* editor; member of the Nominating Committee, Continuing Education Committee, MLA Diversity Symposium Planning Group, National Program Committee, Credentialing Committee, and *Journal of the Medical Library Association* Editorial Board; chair of the Professional Recruitment and Retention Committee; and Chapter Council alternate. In addition to serving as a mentor in the Middle Atlantic Region of the National Network of Libraries of Medicine Mentoring Program, Murphy is also active in the Mid-Atlantic Chapter of MLA and has had several roles including chapter chair, treasurer, and Strategic Planning Committee chair.

Murphy will share her thoughts and experiences in her inaugural address on Tuesday morning.

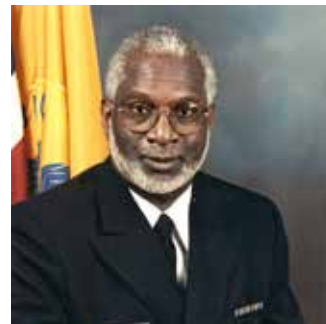

Richardson-Heron has more than 20 years of leadership and management experience in the health care, corporate, and non-profit sectors. She joined NIH from the YWCA USA, where she served as chief executive officer for more than 4 years and led a network of more than 220 YWCA local associations across the country. Under her leadership, the organization optimized its governance and organizational structure; significantly enhanced the engagement and alignment between local and national operations; cultivated new local and national partnerships; and significantly elevated its advocacy work in the areas of racial justice and civil rights, economic advancement, and health and safety.

## Plenary Session Speaker: Dara Richardson-Heron

### “An Overview of the All of Us Research Program”

Dara Richardson-Heron, MD, chief engagement officer of the All of Us research program, National Institutes of Health (NIH), will be the closing plenary speaker. All of Us aims to build one of the largest biomedical data sets in the world, involving participants from diverse communities across the United States. Richardson-Heron will lead outreach efforts to enroll and retain one million or more volunteers in this landmark effort to advance innovative health research that may lead to more precise treatments and prevention strategies.

# GENERAL INFORMATION

## Academy of Health Information Professionals Question-and-Answer Session

The Academy of Health Information Professionals (AHIP) is MLA's professional development and career recognition program. As an MLA '18 attendee, you are eligible to earn up to one point of academy credit per meeting day, for up to three days per year. In addition, the academy recognizes contact hours you earn through continuing education courses and symposia.

Plan to attend the academy Q&A session on Monday, May 21, 2:30 p.m.–3:25 p.m., International Ballroom North (International Tower, Ballroom Level). This session will help you learn all about the credentialing program and application procedures.

## Americans with Disabilities Act (ADA)

All public areas, lobbies, exhibit halls, and meeting rooms in the Hyatt Regency Atlanta are ADA accessible. ADA features include accessible parking and restrooms, automatic door entrances, TTY, payphone, and assisted listening devices. If you have requested ADA accommodations during the registration process, please check in at the MLA Registration Center, Grand Hall Foyer (Atrium Tower, Exhibit Level).

## Sunrise Seminars

### Artificial Intelligence (AI) in Health Care: From Adoption to Disruption

 International Ballroom North (International Tower, Ballroom Level)

This unique session will introduce attendees to a foundational overview of artificial intelligence (AI) and its role in making a transformational impact on health care that will improve patient care and outcomes and increase efficiencies and patient engagement. By going in-depth with real examples of AI in health care today, attendees will gain critical insights on the health care community's acceptance and adoption of AI as well as some of the obstacles still faced in adoption. Jean-Claude Saghbini will also examine challenges of leveraging data, particularly across disparate systems and in unstructured formats. Finally, learn about how the regulatory environment is impacting AI implementations in health care.

Speaker: Jean-Claude Saghbini, Chief Technology Officer, Wolters Kluwer Health

### Cochrane "Inside/Outside": Update from Carol Lefebvre

 Embassy C (International Tower, Exhibit Level)

Carol Lefebvre will join us again this year and provide an "insider's" look at Cochrane from a library/information perspective and outline how the Cochrane Library continues to be an essential tool for evidence-based medicine. As an "outsider" from the publisher, Wiley, she will present an independent view.

Speaker: Carol Lefebvre, Independent Information Consultant and Co-Convenor, Cochrane Information Retrieval Methods Group

### Embase Seminar: Librarian Roles in Teaching Evidence-Based Medicine (invitation only)

 Regency Ballroom V (Atrium Tower, Ballroom Level)

The practice of evidence-based medicine (EBM) requires retrieving the knowledge from an ever-increasing volume of literature. Librarians have supported EBM by offering information searching skills and various tailored training programs. The Embase Sunrise Seminar provides you a platform to learn and share the best practices of teaching EBM. Join us bright and early!

### The Power of Single Sign-On and the Benefits to All

 International Ballroom South (International Tower, Ballroom Level)

Sentara Healthcare provides easy access to clinical resources for all its users. Please join Suzanne Duncan from Sentara Healthcare and Rob Scaysbrook of OpenAthens as they share their experiences of how these strengths are beneficial to all hospital stakeholders.

Speakers: Suzanne Duncan, Manager, Library Services, Sentara Healthcare; Rob Scaysbrook, OpenAthens; and Tim Heiges, EBSCO Health

7:30 a.m.–8:30 a.m.

## Yoga Class

📍Piedmont (International Tower, Atlanta Conference Center Level)

### Technology Showcase

#### Supporting Your Interdisciplinary Care Dream Team

 Technology Showcase Stage, Grand Hall (Atrium Tower, Exhibit Level)

Interdisciplinary care teams play a vital role in improving patient outcomes by treating the whole patient—physically, nutritionally, emotionally, and psychologically. But to ensure continuity of care, team members must work off the same evidence-based playbook. Explore how EBSCO Health can help get your clinicians on the same page.

Speaker: Tracey Bahia, EBSCO Health

**4:30 p.m.–5:00 p.m.**

### Technology Showcase

#### Getting Beyond the Impact Factor: Using Bibliometrics for Research Evaluation at the NIH Library

 Technology Showcase Stage, Grand Hall (Atrium Tower, Exhibit Level)

Using publications and citations to track and measure scholarly impact has become a common practice in the health sciences. Quantitative data support a myriad of research evaluation activities in medicine, including strategic planning, benchmarking, research staff recruitment, and collaboration analysis. In this session, learn how the National Institutes of Health (NIH) Library uses bibliometrics to serve the needs of its researchers and administrators, and learn about best practices for implementing these techniques at your institution. We will use the Web of Science Core Collection and InCites to illustrate bibliometric concepts and explain indicators such as normalized citation impact.

Speakers: Amy Braden, Solutions Specialist, Clarivate Analytics, and Christopher Belter, Informationist, NIH Library, National Institutes of Health, Bethesda, MD

**4:30 p.m.–5:25 p.m.**

### Open Forums

#### Open Forum: MLA Communities Strategic Goal

## Sunrise Seminars

### American Psychological Association (APA)

International Ballroom South (International Tower, Ballroom Level)

Join APA for an update on our resources for health sciences research, patient education, and clinical practice. We will explore APA databases through a variety of sample searches. We will also look at how you can incorporate the tools in APA Style CENTRAL—our resource for teaching, learning, and writing in APA Style—into your teaching, and where it might fit into the picture for the faculty and instructors you support. This session is open to all, and breakfast will be served. Please RSVP if you plan to attend: <https://apa-sunrise.eventbrite.com/?aff=s>.

### Springer Nature Competitive Intelligence: Research Trends in Health Care

Regency Ballroom V (Atrium Tower, Ballroom Level)

Are you interested in insights on the latest trends and content highlights in hospital and health care organizations? Join us for breakfast during this Sunrise Seminar, which brings together Springer Nature’s expertise based upon our proprietary Peer Group Reports. These reports present aggregated usage trends of our content from peer groups of our customers defined by the types of products and services that they provide, research they undertake, and Springer Nature content they use. The basic premise of this high-level taxonomy is that institutions and companies in a group have more in common with each other than they do with organizations from other groups. For medical librarians, this session will dive into data and insights from organizations in medical librarians’ peer group (“General Hospitals”) as well as adjacent groups (such as “Global Healthcare” and “Medical Devices”). You will be provided with the key trends and publishing highlights from across our journal and book portfolio. In addition, we will provide an update on some of our key strategic initiatives designed to help your researchers. Discover. Learn. Achieve.

### Three Trends That Eclipse Point-of-Care Tools

International Ballroom North (International Tower, Ballroom Level)

There is no question that point-of-care reference tools have become a staple in hospitals and health systems, but there are new informatics trends and next generation information resources on the near horizon. Join EBSCO Health to explore some of these trends and tools.

### From Data Standards to DermExpert: The Story of How an Image Collection Learned to Think

Technology Showcase Stage, Grand Hall (Atrium Tower, Exhibit Level)

Come see for yourself how VisualDx's new smartphone app can analyze an image of a skin complaint to aid the physical exam at the point of care. Founded in 1999, the company was and continues to be built on a knowledgebase and image collection that adheres to the strictest of data standards. Now VisualDx has taken those standards and content for the use of machine learning using Apple's CoreML. The result is improved diagnostic accuracy and improved patient care.

MLA '18 attendees are eligible to earn up to one point of academy credit per meeting day, for up to three days per year. In addition, the academy recognizes contact hours earned through continuing education courses and symposia. This session will help you learn all about the credentialing program and application procedures.

## Affiliate Meeting

### Data Catalog Collaboration Information Session

Fairlie (Atrium Tower, Atlanta Conference Center Level)

Is your institution interested in making research data at your institution more discoverable? This meeting is designed as an information session for librarians and libraries interested in implementing a data catalog in their own institutions using the New York University (NYU) Data Catalog model, an open source system for indexing research data. The Data Catalog system is now being used at six libraries to index research data. Members from

participating institutions will be there to provide information about their own experiences implementing the Data Catalog and answer questions from those who attend.

## Public Librarian Welcome Breakfast and Speed-Networking Event

 Regency Ballroom VII (Atrium Tower, Ballroom Level)

Enjoy breakfast and meet the organizers, health sciences librarians, and fellow public librarians. Leaders from MLA, the National Library of Medicine (NLM), the National Network of Libraries of Medicine (NNLM), and the Public Library Association (PLA) will welcome you to the symposium. Forty-five minutes of the session is dedicated to speed networking between public librarians and health sciences librarians to get your day started with meeting as many attendees as possible!

### Welcome

- Barbara A. Epstein, AHIP, FMLA, 2017/18 MLA President; Director, Health Sciences Library System, University of Pittsburgh, Pittsburgh, PA; and Director, Middle Atlantic Region (MAR), NNLM, Pittsburgh, PA
- Scott Allen, Deputy Director, Operations, PLA, Chicago, IL
- Amanda J. Wilson, Head, National Network Coordinating Office (NNCO), NLM, Bethesda, MD
- Erica Lake, AHIP, Chair-Elect, MLA Consumer and Patient Health Information Section (CAPHIS), and Associate Librarian, Spencer S. Eccles Health Sciences Library, University of Utah–Salt Lake City

### Keynote Speaker

- Patricia F. Brennan, Director, NLM, Bethesda, MD

9:00 a.m.–10:25 a.m.

## Symposium Overview, Working Together to Promote Healthy Communities, and Providing Health Information to the Public

 International Ballroom North\* and South\* (International Tower, Ballroom Level)

\* Same session in both rooms

### Overview

Learn about the structure and goals of the symposium and which sessions are best for you. Start making plans to develop your skills in providing health information and for increasing your organization's capacity to provide health information services. Learn about what health literacy means and why it is important to you, your library, and your community.

## Public Library Association (PLA) and National Network of Libraries of Medicine (NNLM): Working Together to Promote Healthy Communities

Learn about the Promoting Healthy Community initiative, the foundation of an ongoing partnership between PLA and NNLM. Learn about the networking, outreach, and other opportunities and resources made available through this partnership and how you can participate.

## Competencies for Providing Consumer Health Information: What Do I Need to Know?

This interactive session will answer your questions about the Consumer Health Information Specialization (CHIS): what it is, its value, and the core competencies that are the basis for the specialization. You will learn about the CHIS-eligible classes and quality health information resources to support library staff and the process of obtaining the specialization. A mini self-assessment will set the stage for developing your personal plan. This segment will conclude with the story of one librarian's personal quest to improve her health information competencies by achieving CHIS and the cascade of positive impact on her work, the library, and services to the community.

### Speakers/Facilitators

- Scott Allen, Deputy Director, Operations, PLA, Chicago, IL
- Elisabeth Kiscaden, AHIP, Associate Director, GMR, NNLM, Iowa City, IA
- Kelli Ham, Community Engagement Librarian, Pacific Southwest Region, NNLM, Los Angeles, CA
- Sandy White, Supervising Librarian, Joel D. Valdez Main Library, Tucson, AZ

10:30 a.m.–11:00 a.m.

### Break

11:00 a.m.–11:55 a.m.

## Building a Consumer Health Information Practice: What Resources Are Out There?

Choose Session 1 or Session 2

### Session 1: Training, Program Ideas, Health Information Resources, Funding

 International Ballroom North (International Tower, Ballroom Level)

NNLM is your “one stop” shop for health information outreach. This session is your chance to get the insider's perspective from representatives across NNLM. We can help you improve your confidence in finding high-quality health information for your patrons, develop health programming at your library, and find funding to start health information outreach in your community.

### Speakers/Facilitators

- Lisa Smith, Executive Director, South Central Region, NNLM, Fort Worth, TX
- Kate Flewelling, Executive Director, Middle Atlantic Region, NNLM, Pittsburgh, PA
- Tony Nguyen, AHIP, Technology and Communications Coordinator, Southeastern/Atlantic Region, NNLM, Baltimore, MD
- Elaina Vitale, Academic Coordinator, Middle Atlantic Region, NNLM, Pittsburgh, PA

## Session 2: Public Library Roles in the Health and Well-Being of Their Communities: Partnerships, Strategies, and Impact!

 International Ballroom South (International Tower, Ballroom Level)

This interactive, town-hall style session will highlight the critical role that public libraries can play in the health and well-being of their communities. By identifying the health profile of their communities, including hard-to-reach populations, public libraries can develop a plan to enhance community members' health literacy. You will be equipped with the knowledge to develop a plan to enhance your personal and organizational capacity to promote community health.

### Speakers/Facilitators

- Rema Affi, Professor, Director, Graduate Studies, Community and Behavioral Health, College of Public Health, University of Iowa—Iowa City
- LaVentra E. Danquah, Outreach Coordinator, Vera P. Shiffman Medical Library, Wayne State University, Detroit, MI
- Mary Kordyban, Detroit Public Library, Detroit, MI
- Julie Robinson, Manager, Refugee and Immigrant Services and Empowerment Outreach, Kansas City Public Library, Kansas City, MO
- Josie Watanabe, Seattle Public Library, Seattle, WA

**noon–12:55 p.m.**

### Lunch on Your Own

**1:00 p.m.–1:55 p.m.**

### Overcoming Barriers and Challenges (Concurrent Sessions)

Choose Session 1 or Session 2

#### Session 1: How Is Precision Medicine Changing Health Care, and How Can I Get Involved?

 International Ballroom North (International Tower, Ballroom Level)

As precision medicine rapidly advances across all health care specialties, public librarians may find themselves challenged in trying to incorporate these advancements into their programs and in answering questions about them from the general public. You will learn about real world examples of the impact that precision medicine can make on an individual's health and quality of life, and you will be empowered to answer questions on such topics as direct-to-consumer tests and privacy. There will be time to ask questions and discuss tips on how to work with the public regarding health issues.

### Speaker/Facilitator

- Colleen Campbell, PhD, Clinical Assistant Professor, Internal Medicine, Cardiovascular Medicine, Carver College of Medicine, University of Iowa—Iowa City

#### Session 2: Overcoming Barriers and Challenges in Understanding the All of Us Research Program

 International Ballroom South (International Tower, Ballroom Level)

Introducing the All of Us Research Program! Have you ever wondered why some people need four blood pressure medications and others only need one? Or how our environment and nutrition impacts our risk for developing cancer or Alzheimer's disease? Come learn firsthand about the National Institutes of Health's new initiative to advance precision medicine. Learn about how the program works and the lessons learned in the first year at the University of Pittsburgh site from coinvestigator Mylynda Massart.

### Speaker/Facilitator

- Mylynda B. Massart, MD, PhD, Medical Director, University of Pittsburgh Medical Center, Matilda Theiss Family Health Center, and Assistant Professor, Family Medicine, Department of Family Medicine, University of Pittsburgh, Pittsburgh, PA

ELSEVIER

# Don't leave clinical searches to chance.

(Save the risk-taking for Plinko.)

Stop by **Booth #129** to play **Plinko**, win great prizes, and grab a ticket for a well-deserved massage at the MLA Relaxation Station. It's all courtesy of ClinicalKey.

## ClinicalKey partners with medical librarians to:

### Foster advanced critical thinking.

ClinicalKey helps both new clinicians and skilled practitioners quickly find, synthesize and apply evidence-based knowledge.

### Provide evidence-based content updates daily.

ClinicalKey's content is updated daily, ensuring the most accurate, critical information is available to support clinical decision making and continuing education.

### Support point-of-care decisions and complex research.

ClinicalKey drives better care with fast, concise answers at the point of care and deep access to current, trusted evidence for complex patient cases.
