Welcome to Mosaic '16: Be Part of the Big Picture

On behalf of the 2016 Joint Planning Committee (JPC), we welcome you to Toronto for Mosaic '16. This meeting has been a long time in planning and represents a great history of collaboration between the Medical Library Association (MLA), the Canadian Health Libraries Association/Association des bibliothèques de la santé du Canada (CHLA/ABSC), and more recently, the International Clinical Librarians Conference (ICLC).

Toronto is a city known for its diversity. In selecting the theme—"Mosaic: Be Part of the Big Picture"—the JPC sought to reflect the many cultures, neighborhoods, libraries, and attractions that make Toronto a great city to live in and visit.

This year's program brings you the very best. From world-renowned keynote speakers to incredible contributed papers, posters, lightning talks, and special content sessions, the JPC has worked hard to create a wide-ranging program that encompasses the many unique facets of health information services, roles, and trends.

We encourage you to make the most of your stay here in Toronto. Leave yourself some time to explore the city beyond the walls of the Metro Toronto Convention Centre! The Local Assistance Committee has planned library tours and dine-arounds to get you started, and the Hospitality Booth can help you find some of Toronto's best-kept secrets.

Enjoy your time in Toronto!

—Anne K. Seymour, Cochair, 2016 Joint Planning Committee
—Jeff Mason, Cochair, 2016 Joint Planning Committee

Bienvenue à Mosaïque : Faites partie du portrait global

Au nom du Comité mixte de planification 2016 (CMP), nous vous souhaitons la bienvenue à Toronto pour Mosaïque'16. La planification de ce congrès a débuté il y a plusieurs années et représente un bel exemple de collaboration entre la Medical Library Association (MLA), l'Association des bibliothèques de la santé du Canada/Canadian Health Libraries Association (ABSC/CHLA), et plus récemment, l'International Clinical Librarians Conference (ICLC).

Toronto est une ville reconnue pour sa diversité. Lors de la sélection du thème — "Mosaïque : Faites partie du portrait global"— le CMP souhaitait refléter les nombreux quartiers, cultures, bibliothèques et attraits qui font de Toronto une ville agréable à habiter et visiter.

Le programme de cette année vous propose le meilleur. Des conférenciers de réputation internationale à de formidables articles, affiches, séances-éclair et séances à contenu spécialisé, le CMP a travaillé intensément afin de créer un programme varié qui met en valeur les nombreuses facettes uniques des services, rôles et tendances de l'information en santé.

Nous vous encourageons à profiter au maximum de votre séjour à Toronto. Mettez du temps de côté pour explorer la ville au-delà des murs du Metro Toronto Convention Centre! Le Comité d'accueil local a planifié des visites de bibliothèques et des soupers de groupes pour vous inspirer, et le Kiosque d'accueil peut vous aider à découvrir certains des secrets les mieux gardés de Toronto.

Profitez de votre séjour à Toronto!

—Anne K. Seymour, Co-présidente, Comité mixte de planification 2016
—Jeff Mason, Co-président, Comité mixte de planification 2016

Welcome to Mosaic '16: Be Part of the Big Picture

Welcome to Toronto and the joint meeting of the Medical Library Association (MLA), the Canadian Health Libraries Association/Association des bibliothèques de la santé du Canada (CHLA/ABSC), and the International Clinical Librarian Conference (ICLC). The 2016 Joint Program Committee and Local Assistance Committee have been hard at work to present informative and interesting speakers and sessions, as well opportunities for fun to enjoy this wonderful and diverse city.

In addition to attending wonderful programs, posters, and papers, do not forget to make time for networking with your colleagues. Informal chats, lunches, and socializing are great ways to learn new things from your peers to take home to your library. Another great way to get the best out of the meeting is to visit with our amazing sponsors. They have everything from breakfast seminars to mouse mats to ensure that you are aware of their products and what they can do for you and your users. This year the Presidents' Awards Dinner will give attendees a fun opportunity to meet and mingle with awardees to learn and have fun as they dance the night away at the party following the dinner.

—Michelle Kraft, AHIP, 2015/16 President, MLA
—Jeanna Hough, President, CHLA/ABSC
—Sarah Sutton, Liaison, and Pip Divall, Liaison, ICLC

Bienvenue à Mosaïque : Faites partie du portrait global

Bienvenue à Toronto et au congrès mixte de la Medical Library Association (MLA), l'Association des bibliothèques de la santé du Canada/Canadian Health Libraries Association (ABSC/CHLA), et l'International Clinical Librarian Conference (ICLC). Le Comité mixte de planification 2016 et le Comité d'accueil local ont mis les bouchées doubles pour présenter des conférences et sessions aussi intéressantes qu'informatives, ainsi que des occasions festives afin de profiter de cette ville emballante et diversifiée.

En plus d'assister à de formidables séances, affiches et présentations, n'oubliez pas de prévoir du temps de réseautage avec vos collègues. Les discussions, lunchs et activités sociales informelles sont d'excellentes manières d'apprendre de nouvelles choses de vos pairs dans le but de les adapter à votre milieu documentaire. Une autre remarquable façon de soutirer le meilleur du congrès est de visiter nos sensationnels commanditaires. Ils vous proposent de tout, de petits-déjeuners instructifs aux tapis de souris, afin de s'assurer que vous connaissiez leurs produits et les services qu'ils offrent, à vous et vos usagers. Cette année, le Presidents' Awards Dinner offrira aux participants la chance de rencontrer les récipiendaires de prix et de s'amuser durant la soirée dansante qui fera suite au repas.

John P. McGovern Award Lecturer Ben Goldacre

Sponsored by EBSCO Health

Ben Goldacre is an award-winning writer, broadcaster, and medical doctor who specializes in unpicking scientific claims made by scaremongering journalists, government reports, pharmaceutical corporations, public relations companies, and quacks. He was trained in medicine at Oxford and London, and currently works as an academic in epidemiology. Goldacre wrote the weekly "Bad Science" column in the *Guardian* from 2003–2011. His book, *Bad Science: Quacks, Hacks, and Big Pharma Flacks* (4th Estate, 2010), has sold over half a million copies worldwide, reached #1 in the paperback nonfiction charts, and has been published in 31 languages. In his second book, *Bad Pharma: How Drug Companies Mislead Doctors and Harm Patients* (4th Estate, 2012), Goldacre puts the $600 billion global pharmaceutical industry under the microscope to reveal flaws throughout the ecosystem of evidence-based medicine. In October 2014, he published his collected journalism in a volume, titled *I Think You'll Find It's a Bit More Complicated Than That* (4th Estate).

Monday, May 16

Janet Doe Lecturer M.J. Tooey, AHIP, FMLA

"We Can Be Heroes: MLA's Leadership Journey(s)"

M.J. Tooey, AHIP, FMLA, is associate vice president, Academic Affairs, and executive director, Health Sciences and Human Services Library, at the University of Maryland–Baltimore, where she has worked in various library positions since 1986. She is also the director of the National Network of Libraries of Medicine's Southeastern/Atlantic Regional Medical Library, under contract with the National Library of Medicine at the National Institutes of Health. She received her master of library science degree from the University of Pittsburgh and her bachelor of science degree in education from Clarion State University (formerly, Clarion State College).

Tooey served as MLA president from 2005–2006 and was elected a Fellow of the association in 2009. She has also served on MLA's Board of Directors (1998–2001) and as the chair of the 2004 National Program Committee. In 1997, she received the MLA Estelle Brodman Award for the Academic Medical Librarian of the Year.

Tooey is the author or coauthor of over 100 chapters, articles, presentations, or posters. Her professional interests include leadership, emerging trends, library innovation and design, ethics, and mentoring.

Sunrise Seminar

Transforming the Way You Search, Discover, and Deliver

Room 104D

Mauro Castillo Garcia-Maurino, Director, Customer Engagement, Wolters Kluwer

Liz Hayden, Bibliothécaire responsable de l'évaluation/Assessment Librarian, Université d'Ottawa/University of Ottawa

In the ever-changing, fast-paced, technology-driven environment, users rely on the latest and the greatest to access the content they need at their fingertips. This enables them to stay up-to-date with premium medical and health content through a powerful, fast, and concise search tool. From the most innovative conceptual search algorithm to the most advanced search thesaurus tool, users require the flexibility to adapt their search and discovery to their needs.

Taking content accessibility a step further, we want to put users in a position to enhance their integrated library search experience by initiating their discovery in a platform offering a unified web-scale search interface for all their health and medical content needs. As a result, Wolters Kluwer's Health Learning, Research & Practice brings you OvidDiscovery—a fully integrated search tool, dedicated to providing users with medical content, while retaining the simplicity they are used to when searching the web. A search tool that brings a unified point of access to all resources, OvidDiscovery helps users familiarize themselves with their library's content using a fast search portal and results retrieval platform. Users can access biomedical, nursing, and pharma pre-harvest collections; search specifications that allow discovery at article and chapter level; and filter and/or limit records, as well as options that include "save and access Ovid MEDLINE" and subscribed full-text access, and more.

Exploring the impact and value that these tools deliver to users has become imperative. We will provide attendees with key takeaway tools on where to start, what quantitative and qualitative data elements could be used, and who can help analyze the information. Using data-driven decision making, you will be able to prepare a plan of action, identify who can lend expertise and support, and formulate actionable recommendations to ensure users have the content they need.

7:00 a.m.–8:55 a.m.

Open Forums

Open Forum: Discussion of Proposed Bylaws Amendments

Room 205B

Sponsored by the MLA Bylaws Committee

Join us for a discussion of proposed MLA Bylaws and Special Rules of Order modifications intended to support a more nimble and responsive governance structure to meet the quickly changing needs of our members and the health sciences library environment. MLA members will subsequently vote on proposed changes at the business meeting on Tuesday, May 17, 9:00 a.m.–10:25 a.m.

Open Forum: MLA's International Initiatives

Room 202B

Sponsored by the International Cooperation Section and Librarians without Borders® Committee

Join us for a two-part discussion of MLA's international initiatives:

1. Discover what you can do to expand access to research in the developing world by applying for a new MLA HINARI/Research4Life Grant.
2. Weigh in on MLA's international strategy.

We invite our members and international attendees to participate and share with us their perspective on international collaboration.

Open Forum: Public Access to Government-Funded Research Publications

Room 203B

Sponsored by the MLA Scholarly Communications Committee

Join invited speakers Jerry Sheehan, assistant director, Scientific Data and Information, White House Office of Science and Technology Policy, and Kathryn Funk, program specialist and librarian, PubMed Central, Information Engineering Branch, National Library of Medicine, for the latest information about several new public access policies developed by federal agencies.

This event will provide an update on US departments and agencies with completed public access plans. These plans were in compliance with the February 2013 Office of Science and Technology policy memorandum calling for increased public access to the results of federally funded scientific research.

Sheehan and Funk will address the interagency perspective, the PubMed Central perspective, implementation, and the timeline. Forum attendees will have a better understanding of the librarian's role in supporting compliance and helping meet the needs of authors, funders, and the public.

6:00 p.m.–7:00 p.m.

EBSCO: Solving the "Findability" Conundrum in Medical Research

Room 201D

We live in a world characterized by informational accessibility, yet "findability" remains a significant challenge. How do you know where to go for what information? And when you get there, how do you know the result is the most relevant and, indeed, the most current possible? Needless to say, finding the right information is critically important. It underlies the very essence of medical knowledge and the ability, in fact, to care for patients. So how do we solve the information findability conundrum? Join this panel of health care, discovery, and user research experts for an in-depth look at the principles and the technology behind an all-in-one search platform; one which bridges the multitude of information resources that are available to medical professionals today.

Inside/Outside Look at Cochrane: Update from Carol Lefebvre

Room 205B

Carol Lefebvre, HonFCLIP, independent information consultant and co-convenor, Cochrane Information Retrieval Methods Group, Oxford, United Kingdom, will provide an insider's look at Cochrane from a library/information perspective and will outline how the Cochrane Library continues to be an essential tool for evidence-based medicine (EBM). As an outsider from the publisher, Wiley, she will present an independent view.

Technology Showcase

Opening Ovid: Helping Librarians Boost Patron Engagement with Clinical Resources

Exhibit Hall A, Technology Showcase Stage

Medical librarians make available a large and diverse body of resources for their equally diverse audience of patrons: students, faculty, clinicians, and others. Providing ease of access to these resources is a challenge that discovery technologies have tried to address with some success. However, not all patron groups need or use the same access points. With a number of new technology-based initiatives—Ovid Clinical Insights, OvidToday, Ovid Discovery, and Explore Ovid—Wolters Kluwer is helping librarians implement tools to increase their patrons' engagement and boost usage by meeting users halfway, based on the way they use information. This session will describe these initiatives, focusing on Ovid Clinical Insights, and how they will serve clinician patrons.

Covidence: Streamlining Systematic Review Production

Exhibit Hall A, Technology Showcase Stage

Covidence is Cochrane's online systematic review production platform, improving the efficiency and experience of producing systematic reviews.

Covidence supports import and de-duplication of citations; title, abstract, and full-text screening; risk of bias assessment and data extraction; and export of data directly into the relevant review in RevMan.

The showcase is an opportunity for new users to get to know Covidence and see its interface. Attendees will be able to see Covidence's main features in action and to ask questions of the support team.

ClinicalKey® Reference Suite

EMPOWERING YOU

The fastest path to concise clinical answers for collaborative, consistently safe, cost-efficient care.

Better, evidence-based answers—accessed across care teams to support care coordination—are crucial to improving outcomes. With the ClinicalKey Reference Suite, healthcare professionals will have access to the most trusted content available to enable better decisions to optimize treatment plans, reduce unnecessary tests, and improve the delivery of care. By providing access to industry-leading evidence-based information for physicians, nurses, and pharmacists under one reference suite, you can help ensure patients receive consistent, coordinated care.

Stop by Booth #207
to learn how Elsevier is supporting physicians, nurses and now pharmacists through the ClinicalKey Reference Suite.

How can you enhance your value as a medical librarian?

Please join Dr. Peter Edelstein at MLA '16 for his presentation,
"Enhancing the Value of the Medical Librarian in Today's Changing Clinical Decision Support World."
